The complete solution
One-Stop-Shop

 **FERNO**® **TRANSFER CHAIRS**

TOGETHER WE'RE TRANSFORMING EMERGENCY CARE, FOR LIFE

Back in 1955 Dick Ferneau and Elroy Bourgraf, set up shop to manufacture and innovate Patient Transport Solutions. Today and over sixty years on, the FERNO Global Brand is still under the care of Elroy's eldest son Joe, who like his dad, believes his company really does make a difference. FERNO have shaped Emergency Care around the World with so many inventions ALL centred around safer, better and easier movement of patients.

Today FERNO have a complete range of transfer and evacuation chairs, that do the task in hand, maintain patient comfort, confidence and protect the users from injury, they come with various attributes from a simple transfer chair to an EZ Glide PowerTraxx that will carry a larger person up and down any flight of stairs.

When you buy a FERNO Chair you can rest assured that it is tested, made from high-grade materials and is the complete package including Training, because without familiarisation and knowledge of the correct use you would be putting people at risk, that is why a FERNO chair is the choice of medical and rescue professionals worldwide.

So whatever you need and for any purpose we have the solution for you...

The table below provides a quick guide of the purpose of each chair and the following content goes into a lot more detail, but feel free to ask you will always get the best advice and help from FERNO on +44 (0) 1274 851 999

FREE WORKPLACE EVACUATION AUDIT

FERNO provide a **no obligation service** auditing your workplace, so you can see if it meets fully with the latest legislations.

Simply take advantage by sending a request to - sales@ferno.co.uk or call +44 (0) 1274 851 999

SAVER SAFE EVACUATION CHAIR

This chair provides the perfect solution for an emergency evacuation situation.

Designed to meet the needs of 'The Regulatory Reform (Fire Safety) Order 2005' and 'The Equality Act 2010' this chair should ideally sit on each floor stairwell, on it's bracket, with it's dust cover on - ready for action, but hopefully never to be needed.

The FERNO SAVER SAFE Evacuation Chair is the sensible solution for meeting any emergency evacuation situation.

It glides down stairs easily and smoothly to ensure no heavy lifting or manual handling is required, although training of its use is essential for operators or responsible person(s).

- **Improved operator control and comfort** – easy-grip handles make the initial decent downstairs much easier and when positioning the chair onto the first step
- **Reassuring patient safety** – removable, adjustable head pad and comprehensive retaining straps to enhance comfort and security
- **Better manoeuvrability** – wide rear kick stand adds strength, and stability on the rear castors preventing tipping of the chair
- **Easy storage** – Lightweight, with compact profile it comes with wall bracket, dust cover and user guidance signage
- **Simple to clean, maintain and replace** – removable seat cover with zips situated on the underside
- **Lateral transfers made easy to another device** – seat cover wraps around the side tubes giving the patient an optimum seated position

Part Number
 SAV-001 Saver Safe evacuation chair, complete with dust cover, wall sign and wall bracket
 038299700 Replacement dust cover for Saver Safe chair
 038299702 Replacement wall bracket for Saver Safe chair

Specifications

Height Open	Height Folded	Depth	Width	Weight	Load Limit
1334 mm	1030 mm	914 mm	527 mm	11.2 kg	180 kg / 28st / 396 lbs

COMPACT 1 AND 2 CARRY CHAIRS

The Compact Carry Chair range is durable, robust and are manufactured from stainless steel. Their one piece back and seat flame retardant, vinyl coated nylon covers allows the patient to adopt a comfortable position during transfer.

- **Infection Control** - Seat covers can simply be wiped clean for maximum hygiene
- **Compact and lightweight** - Folds neatly into a compact size making it easy to store or hang from a wall
- **Ideal for confined space** - Large 180mm wheels and axle bar provides stability over uneven ground and manoeuvrability in especially tight spots
- **Added patient safety** - Easily adjustable chest and ankle restraints are quickly applied and come in Biosafe
- **Operator and Patient enhanced safety** - Designed with extra security in mind with safety rings that ensure the folding mechanism can not fail during use

Compact 1 proven chair is invaluable when transferring patients through corridors and lifts due to its narrow design and large rear wheels.

IDEAL FOR

Care, Nursing Homes, Private or NHS Hospitals and Day Centres

Specifications

	Height (folded)	Width (folded)	Depth (folded)	Weight	Load Limit
Compact 1	935 mm (765 mm)	435 mm (435 mm)	430 mm (235 mm)	9.1 kg	200 kg / 31st / 440 lbs
Compact 1-S	935 mm (775 mm)	445 mm (445 mm)	420 mm (285 mm)	9.7 kg	200 kg / 31st / 440 lbs
Compact 2	935 mm (775 mm)	445 mm (445 mm)	420 mm (285 mm)	9.4 kg	200 kg / 31st / 440 lbs

Compact 1-S not only has large 180mm wheels at the rear, it also has two smaller swivel wheels at the front making it even more manoeuvrable in confined spaces.

Compact 2 has been designed with ergonomic front grip handles for improved posture when carrying patients down stairs.

038299401	Dust Cover

COMPACT 2 TRACK

A lightweight, manoeuvrable carry chair... with the capability of converting into a track chair for downstairs transfers

Having all the advantages of the familiar and commonly used Compact 2 the Compact 2 Track also has the capability of being able to attach a track to the chair when needed, thereby allowing patients to be safely and easily transferred downstairs, eradicating the need to lift.

An adjustable-height rear handle also ensures that the chair accommodates operators of all statures, eliminating stooping when moving patients on vertical ground, up and down vehicle ramps etc, making the transfer easier, safer and more stable.

Combining the features of a carry chair and track chair in one product reduces manual handling risks, reduces the weight of equipment operators have to carry, decreases the equipment weight in the vehicle and frees-up available space, which all ultimately lead to cost savings.

- **Outstanding versatility** – converts to a track chair quickly and easily
- **Enhanced operator use** – rear handle adjusts for operators of different stature
- **Quick and easy** – Simple chair deployment and track attachment
- **Lightweight and durable** – stainless steel construction, designed to minimise weight
- **Infection Control** – seat cover and headpad made from materials containing anti-bacterial additives
- **Stays stable, even on uneven ground** – adjustable rear handle, large wheels and axle bar ensure excellent balance
- **Minimised injury risk** – reduced weight of equipment to carry, improved operator body posture, elimination of lifting of patients downstairs and in/out of ambulance vehicles
- **Crash Tested** – in-vehicle 2 piece storage bracket secures chair and track in one place and is dynamically tested including VCA certification to EN 1789 CEN standard.

COMPACT 5 TRACK

Multi-function track and carry chair, designed for a wide range of applications and uses...

This development gives better patient safety and comfort, whilst providing enhanced operator functionality. The built-in tracks allows a patient to be moved down stairs with ease. Strong and tough for high usage making this the perfect chair for Patient Transport Services patient transfers, as well as for use as an evacuation chair.

- **Multi-functional** – designed to be used as a carry chair, tracked stair chair and wheelchair
- **Enhanced Patient Comfort** – includes hinged armrests and folding footrest
- **Added Security** – chest, waist, and ankle biosafe patient restraints
- **Handles brilliantly in compact spaces** – front castor wheels and rear braked wheels for ease of manoeuvrability
- **Outstanding versatility** – retractable lower grab handles and adjustable rear lifting handle to accommodate different height operators.

EZ GLIDE 59T

Over carpets... in confined spaces... on stair landings... the robust track chair that delivers exceptional handling without any need for lifting

The versatility and supreme manoeuvrability of Ferno's EZ Glide has made it the industry leader. It offers safe, easy handling of patients up to 227kgs/35st 10.4lbs, without risking injury to operators through strain and lifting.

The chair offers a high degree of reassurance to the patient through its lower track angle, secure restraint system and extending footrest – an important factor in potentially distressing evacuation scenarios.

- **Unique easy-handling** – one inch track-to-ground clearance and front 100mm swivel wheels
- **Easily manoeuvrable in tight spaces** – extra tall 150mm rear wheels for easy handling even on stair landings and other confined areas
- **High level of safety** – positive locking hinge mechanism ensures chair is locked in place whether in use or folded
- **Reassuring patient security** – with extending foot-rest and lower track angle
- **Complete operator control** – optional rear handle provides additional ease of handling
- **Clinical assets** – extendable Integral IV pole, quick hook hanging bracket and cylinder holder
- **Easy clean** – detachable ABS plastic panels

EZ GLIDE POWERTRAXX™

Safely takes the trickiest stairways **UP OR DOWN** at the touch of a button

EZ Glide PowerTraxx is so much more flexible than any other powered track chair. Capable of moving down and upstairs under controlled power, you can slow it down... turn it around... bring it to a halt... all at the touch of a button.

It's not just for stairs, either – **EZ Glide PowerTraxx** effortlessly moves over all kinds of difficult terrain, including curbs. It can even be used to move heavy equipment, as well as people.

All the weight of the chair and occupant is borne by the track and motor not the operators – so the risk of manual handling injuries is minimised.

- **Effortless patient handling** – adjustable speed control for safe, easy use; touch-button wireless control panel for convenient operator use
- **Flexible and versatile** – climbs and descends stairs, goes around corners, tackles difficult terrain... entirely without strain
- **High load capacity** – will transport patients and equipment loads of up to 227 kg / 35st / 500 lbs
- **Excellent patient safety** – an automatic braking system combined with options such as adjustable cushioned headrest/shoulder support and extended footrest, ensures patient safety and comfort
- **Convenient to use** – detachable battery stays charged over 20 flights of steps, just 60 mins recharge time plus 240V or 12V charger options are available

EZ GLIDE LBS

The industry-leading patient handling EZ Glide track chair range is now in a stronger, wider specification for larger patients

The EZ Glide LBS combines all the industry-leading benefits of the tried and tested EZ Glide 59T tracked chair, but with an extended seat and strengthened fixed chair frame. This ensures that patients up to 318kg can be safely moved over a variety of surfaces, through confined areas and down stairways... all without risking injury to operators through strain and lifting.

This unique chair provides complete reassurance to the patient through its integrated track brake control system, which gives total control in potentially distressing evacuation scenarios.

- **Stronger and wider** – incorporating extended sides, reinforced footplate and a strengthened fixed frame, to seat patients with a greater physical mass
- **Uniquely easy-handling** – 25 mm track-to-ground clearance and smooth 100 mm front swivel wheels
- **Easily manoeuvrable in tight spaces** – 150mm rear wheels for effortless handling even on most stair landings and confined areas
- **Reassuring patient security** – with Biosafe 4 point harness and extending footplate complete with straps
- **Complete operator control** – unique adjustable braking system and rear carry handles provide further ease of handling

- **Improved comfort** – supplied with seat and back rest cushion, and headpad, headrest/shoulder support also available
- **Multi-purpose** – can be used as a in-vehicle patient seat when used with NMI Saferider restraint system in conjunction with Pocket Lock or Unwin Strap System*
- **Feature rich** – including rear folding handles, extended footplate, IV pole and winch attachment, all included as standard

Skills and Expert Knowledge all wrapped up in FULL Training Packages

The correct use of Emergency Medical and Rescue Equipment is essential, because in the wrong hands a user can inflict serious injury to both themselves and the casualty.

That is why at FERNO we have invested in bringing customers the most comprehensive training available to-date.

TRAIN THE TRAINER – up to 6 delegates

Comprehensive education and protocols for the teaching of others to use our Specialist Equipment.

PRODUCT FAMILIARISATION – up to 10 delegates

Being comfortable and confident when having to work with or use our Specialist Equipment.

Both courses bring to you the total experience and skills set, that leave you with the knowledge, expertise, course notes and back up needed to use the specific FERNO product trained upon.

Products such as evacuation chairs, emergency medical and rescue equipment, stretchers, trolleys, extrication and immobilisation devices, bariatric equipment and our vehicle intelligence system ACETECH.

All working across our key sectors of Ambulance and Hospital, Rescue and Evacuation, Funeral and Mortuary and Commercial Health and Safety.

So remember whatever equipment training you need we have the package ready and waiting for you, either book call our dedicated customer service team on +44 (0) 1274 851 999

Cost-effective essential servicing protection for your equipment

Naturally, you want to make sure you have an effective maintenance regime in place to maximise the lifetime of your equipment. You'll also be aware that you need to carry out regular maintenance to prevent the risk of equipment failure and possible injuries.

We can help you meet these requirements cost effectively – by using a Ferno Service Technician.

With Ferno Service you get total peace of mind by meeting all your servicing and maintenance commitments in accordance with our recommendations. Quite simply, it means that your equipment and staff can operate to the best of their abilities at all times.

Our Service Cover gives you:

- Scheduled maintenance visits
- Dedicated service from fully-qualified Ferno Technicians
- Steam cleaning where necessary
- Lubrication of moving parts
- Full, detailed report of worn-out, faulty or broken parts
- Save money by paying only for parts and labour when repairs are needed

To find out more about FERNO Service please contact us today: +44 (0) 1274 854 511 or email: service@ferno.co.uk
