Made in  
**UK**

Medipal patient care wipes are designed to gently cleanse the skin keeping it nourished, hydrated and healthy. They are suitable for full body cleansing.

### Moisturise and Nourish

**Added moisturisers** keep the skin soft and nourished, providing extra care to sensitive areas.

**Vitamin E** anti-oxidant properties, support skin healing and improve skin immunity.

**Vitamin B5** hydrates and preserves the skins moisture keeping it healthy.

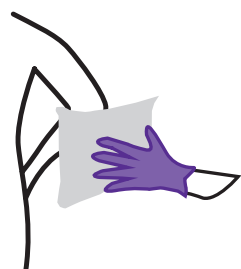

### Gentle and Refreshing

Skin Friendly, **gentle pH 5.5**

Skin feels soft and refreshed, without being sticky after use.

Soft wipes for the full body cleansing, providing extra care to sensitive areas suitable from infant to elderly.

### Rinse Free Cleansing

Contains gentle skin friendly cleansing lotion.

**Pre-moisturised wipe** for fast and rinse free bed bathing.

No need for soap, water or towels reduces the risk of spread of infection.

### Practical Packaging

**Resealable** Packaging.

**Spill proof packaging** protects the wipes from splashes and damp.

Packaging design allows **hygienic dispensing** and reduces risk of contamination.
