Make your practice more efficient in a heartbeat.

INTRODUCING

The Family of Welch Allyn Cardiopulmonary Products

WelchAllyn®

Advancing Frontline Care™

A flexible, EMR-ready family of cardiopulmonary

Work faster and more efficiently—without changing the way you work.

Now you have the flexibility to manage all of your cardiopulmonary test data within one software package without disrupting your routine. Our cardiopulmonary devices manage patient data in the same way, so you can easily and quickly retrieve patient information at the click of a button.

Whether you choose stand-alone, PC-based or networked options, all Welch Allyn cardiopulmonary devices are EMR-ready, which means you can connect them to your medical records system now or in the future.

This level of flexibility represents a new era of patient care. Make sure your practice gets there with a name you know and trust.

EFFICIENT—FLEXIBLE—USE

devices that makes every minute count.

Resting ECG	Pocket PC ECG	PC-based Resting ECG	Exercise Stress ECG	Spirometry	ABPM	Holter
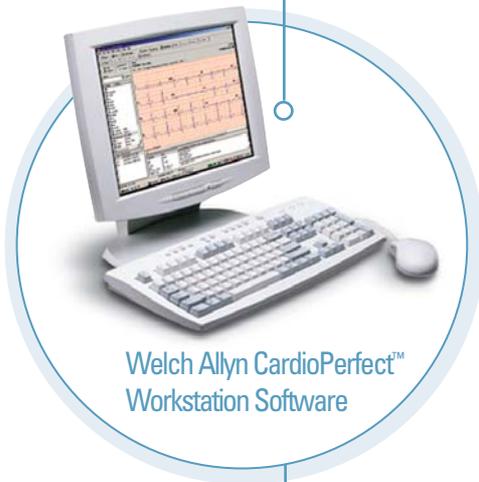

Welch Allyn CardioPerfect™
Workstation Software

Powerful software that makes data management easier

Access your patient data across the entire family of cardiopulmonary products with Welch Allyn CardioPerfect™ Workstation Software. This software manages data from these different diagnostic tests in the same way, allowing you to store all of your patient information in the same record. This makes retrieval and analysis of the information quick and easy, allowing you and your staff to interact more efficiently with your patients.

Transfer patient data to your EMR

ELECTRONIC MEDICAL RECORDS

If you're ready for an EMR—we're ready for you

Once patient information and testing data are in the Welch Allyn CardioPerfect Workstation software, it can be easily transferred to many leading EMRs through a simple electronic interface. And if your EMR doesn't connect with Welch Allyn devices, we'll help facilitate the process with your EMR supplier to develop the software interface that you need.

ER-FRIENDLY—EMR READY.

ECG solutions so flexible, they fit how you'll work today— and how you'll work tomorrow.

Welch Allyn's ECG portfolio offers you a variety of different ways to take accurate ECGs. Whether it's in a surgery or hospital setting or at a remote location, we've got options that will allow you to work the way that's most efficient for your practice. And with a range of devices with different features, it's easy to find a device that's right for you. More importantly, since all of this information from each of these devices can be stored and managed in the same software, you can compare and contrast ECGs taken from different locations easily.

Welch Allyn CP 100™ Resting ECG

The Welch Allyn CP 100™ is a cost-effective, 12-lead ECG device boasting a full alphanumeric keyboard and LCD screen that make it easy to enter patient data.

> High-resolution thermal printer generates standard full-sized reports in the configuration you need
> Optional MEANS ECG interpretation software

Welch Allyn CP 200™ Resting ECG

The Welch Allyn CP 200™ is an easy-to-use, full-featured device featuring an intuitive design and dedicated function keys that make taking ECGs easier. The CP 200 has all the same features as the CP 100 plus:

> Colour ECG waveform preview screen allows you to preview information on screen as well as review tests before printing
> Store up to 50 ECGs and 50 spirometry tests for later review and editing of patient data and interpretation
> Optional spirometry module which performs FVC, SVC and pre- and post- testing, with automatic interpretation and comparison to best pre-BD

Welch Allyn PC-Based Resting ECG

The Welch Allyn PC-based Resting ECG uses Windows® software to turn any PC into a full-featured electrocardiograph that quickly and easily takes ECGs.

> Save time and eliminate repeat ECGs by reviewing a complete 12-lead report onscreen prior to printing
> Using the on-screen ECG report editor you can change or add a diagnosis, as well as do a comparison of previous ECGs to highlight changes

Welch Allyn Pocket PC Resting ECG

Based on the Windows® CE (Pocket PC) platform, the Welch Allyn Pocket PC ECG lets you enjoy the convenience of taking an ECG in remote locations without needing to transport bulky equipment. It's perfect for homecare professionals.

> Records a standard 12-lead ECG; calculates and displays the average heart rate
> Review recorded ECGs on screen, then enter comments that will transfer with the patient's test results to Welch Allyn CardioPerfect™ Workstation Software

It's never been easier to collect and manage all of your patients' cardiopulmonary test data

To complement our ECG portfolio, we have developed a variety of other cardiopulmonary devices for you. Each device comes with the same quality standards and intuitive design you would expect from a Welch Allyn device, but what makes them special is how they all work together. By managing all your cardiopulmonary patient test data through the Welch Allyn CardioPerfect™ Workstation Software, you can review and store tests from a variety of instruments at the click of a button.
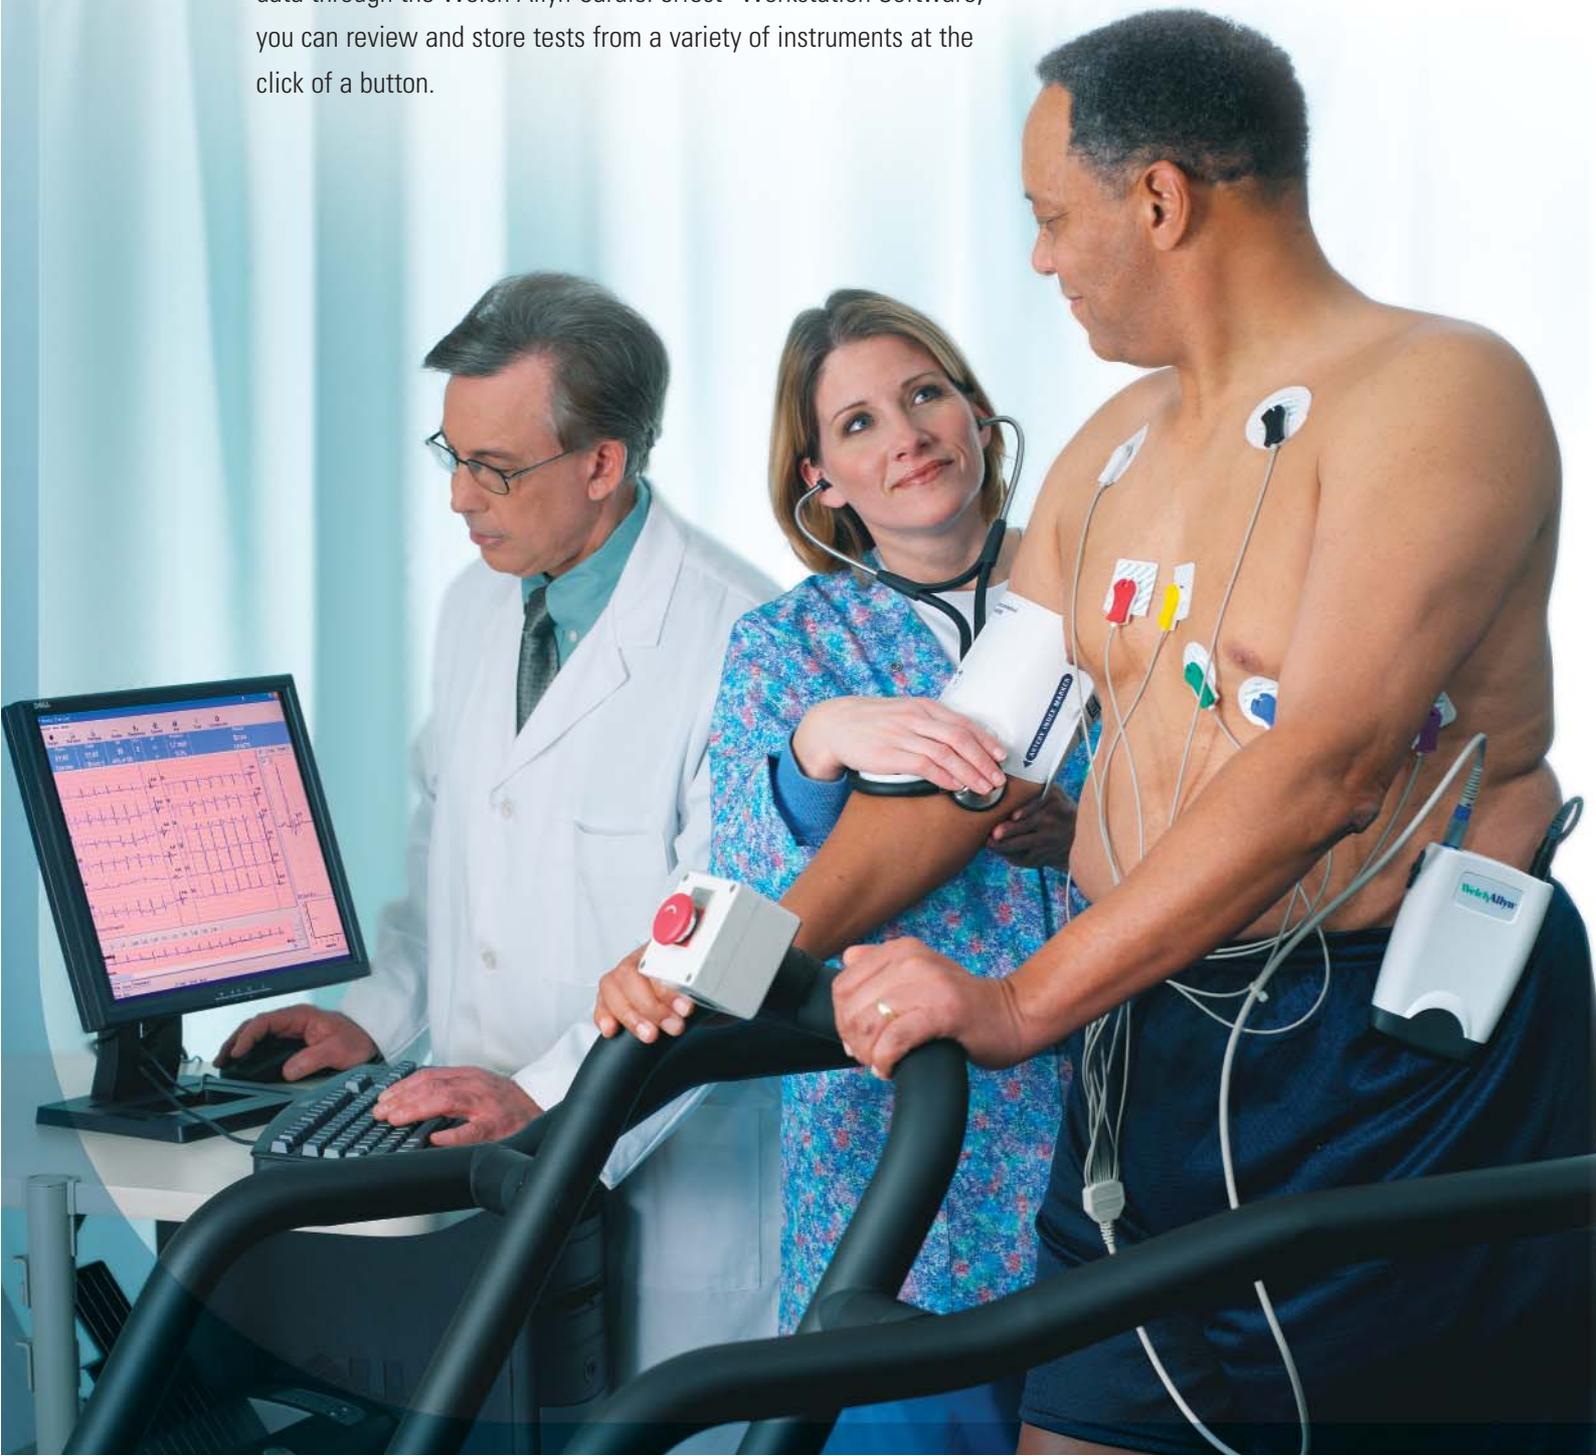

Welch Allyn PC-Based Exercise Stress ECG

Welch Allyn PC-Based Exercise ECGs feature everything you need, including the ability to simultaneously monitor 12 leads onscreen with programmable reports and protocols—all in one high-performance, low-cost system.

> Performs all commonly used stress protocols, and has the ability to customize additional protocols for personal preference

> Provides optional ST measurements that can be modified at any point before, during, or after the test

> Prints reports automatically including full disclosure, 2 x 6 leads, averages, trend graphs, tabular reports and summaries

Welch Allyn ABPM 6100S

The Welch Allyn ABPM 6100S helps you analyse blood pressure readings and diagnose potential problems like white-coat hypertension due to its powerful software and easy-to-understand reports.

> Lightweight, small, and quiet with simple one-button operation that helps improve patient comfort and encourage compliance

> Intuitive, user-friendly Windows®-based software outputs reports that can easily be tailored to meet your needs

Welch Allyn PC-Based SpiroPerfect™ Spirometer

The Welch Allyn PC-Based SpiroPerfect™ Spirometer takes just seconds to provide accurate results for various pulmonary function tests.

> Accurately and reliably performs the most common spirometry tests like pre- and post-bronchodilator FVC, SVC and MVV testing. Includes automatic interpretation and reversibility analysis

> Software instantly verifies quality and variability of proper test performance, and can compare previous tests with the trending tool

Welch Allyn Holter

The Welch Allyn Holter is a simple-to-use device that improves patient compliance due to its lightweight, small profile.

> Simple to use set-up wizards customise the system to your needs so that you can quickly retrieve the data you need

> Wireless data transfer to PC where you can use a summary report or highlight key areas for further analysis

Put more data in your hands without putting more demands on your time

Use the Welch Allyn CardioPerfect™ Workstation Software to manage your cardiopulmonary testing data

All of the Welch Allyn cardiopulmonary products* transfer information to the Welch Allyn CardioPerfect™ Workstation Software, which provides paperless efficiency as well as connectivity to many leading EMR systems. This software gives you the ability to store, access, review, compare and edit diagnostic test data from any computer on your network.

> Retrieve records with the touch of a key, and review and edit right on the screen
> Store thousands of records with ease
> Access information from your exam rooms, your office, or at home
> Fax or e-mail reports directly for further consultations
> Integrate with other patient information systems

Use this Windows®-based software to easily choose the cardiopulmonary test you intend to perform

Large display shows testing information in a format that makes analysis easily

Review all of the different tests performed on a patient with the click of a button

Add notes in our unique interpretation editor to record your diagnosis

* Holter transfer available from September 2006

EMR-ready software helps you manage your patients more efficiently

The Welch Allyn CardioPerfect™ Workstation Software is EMR-ready, and can transfer information quickly to your EMR system. Integrate invoicing, scheduling, and all of your patient test data into one information system that can track all your patients' tests easily. And with the ability to transfer information back and forth between your EMR and the Workstation software, you can save time by keying patient information in once and then using it for all your diagnostic tests.
