Welcome to the Medisave 2019 catalogue! The last year has seen some very positive and exciting changes here at Medisave. Alongside a new warehouse extension which has taken our overall capacity to around 23,000 square feet, we have also welcomed many new staff to all departments.

A result of this is the addition of a new outbound Sales team who devote themselves to maintaining and developing relationships with our GP’s and ensuring that the best pricing is attained for our loyal repeat customers. Just email us at savemoney@medisave.co.uk with a list of your regular purchased consumable items and we will get back to you straight away with our discounted offering. Additionally, you will receive a 3% rebate each quarter and free next day delivery on in stock items when you place your order before 4.30pm.

We pride ourselves in our great relationships with manufacturers and brands that we feel privileged to work with. We strive to ensure we achieve the best pricing, negotiating with our partners to ensure we tailor regular promotions including not just discounted pricing, but extended warranties or additional consumables to ensure added value.

Please also check out the website at the beginning of the month for our special monthly offers!

We have some great new products and ranges in this year’s catalogue including the TM-2440 and TM-2441 A&D ambulatory blood pressure monitors with AFib detection on page 16. These are lightweight and compact but more importantly provide irregular heartbeat detection AND screen for Atrial Fibrillation. The new NObreath FeNO monitor is featured in our spirometry section on page 72 and we have new seating by Plinth Medical on pages 103-106. These are to name but a few!

Don’t forget the website features tens of thousands of products so if you don’t find what you want in the catalogue, please do check www.medisave.co.uk or call 0800 8046 447 and speak to one of our trusted advisors who will endeavour to help with any queries.

Wishing all our customers a happy, healthy and fruitful 2019!

HOW TO BECOME A 30 DAY ACCOUNT CUSTOMER

If you wish to be invoiced rather than paying immediately, you can easily become a 30 Day Account Customer simply by using our Echosign online ordering process or fax, email or post your first order to us and let us know that you would like to open an account. You can use your own official order system, letter headed notepaper or a copy of the Medisave order form from inside the back cover of this catalogue. We will open an account for you within 4 hours. (Subject to status)

ABOUT OUR WEBSITE

Ordering via our website is the quickest and easiest method to order, check our stock levels or get more technical details on each product. Simply enter the product code into the search box at the top-right of the website to take you directly to the product.

CUSTOMER SERVICE

Our friendly customer services team is on hand to offer product information and advice, provide pricing information and will price match wherever possible. We are always happy to put our names to our conversations meaning you can request a dedicated point of contact when you call, ensuring continuity of customer care.
The DELTA 20T offers unrivalled precision optics and the functionality to toggle between polarised and non-polarised illumination. No time consuming exchange of contact plates is necessary, at the same time contact dermatoscopy with immersion liquids is possible at any point, allowing the examination method to be matched with the respective pigmented skin lesion to obtain the best diagnosis.

- **Toggle between polarised and non-polarised illumination modes** - Conveniently alternate between polarised and non-polarised views with the press of a button - no exchange of contact plates necessary
- **Recognition of the “Blink Sign” when observing crystalline structures and presence of milia cysts, increasing diagnostic function**
- **Optional small contact plate available** - Special small contact plate for difficult to access lesions
- **Digital documentation capabilities** - Connect to major brand SLR digital cameras with HEINE digital camera lens system. Specially designed lenses integrate the camera and DELTA 20T optics together to provide the highest quality imaging possible
- **High quality, achromatic optical system provides unmatched sharpness and resolution**. Focusing system provides for 10x to 16x magnification for recognition of even the smallest details and structures
- **LED illumination systems require thermal management to ensure long-term performance and product stability. Carefully selected and applied heat-diffusing materials guarantee consistent quality and performance throughout the LED’s lifetime rating of up to 50,000 hours**

**Delta 20T Dermatoscope**
Highest Quality Images and Diagnostic Flexibility – with LED HQ

The DELTA 20T offers unrivalled precision optics and the functionality to toggle between polarised and non-polarised illumination. No time consuming exchange of contact plates is necessary, at the same time contact dermatoscopy with immersion liquids is possible at any point, allowing the examination method to be matched with the respective pigmented skin lesion to obtain the best diagnosis.

- **LED HQ**
- **Contact plate with 10x magnification and scale**
- **Perfect combination of precise optics and bright illumination**
- **Micro-USB connection for charging the integrated Li-ion battery**
- **Free NC2 App**
- **Especially large overview field. HEINE precision optics with 27 mm diameter for unmatched sharpness, high-resolution images**
- **Power supply - Li-ion cell 3.6 V (changeable)**
- **Completely homogeneous, bright light with true colour rendering for a precise diagnosis**

**NC2 Dermatoscope**
With USB Handle, Contact Plate & Scale

All-round dermatoscope, universal application, efficient and precise in all situations: The contact plate achieves a clear, reflection-free and highly detailed image with 10x magnification, even without immersion fluid.

Medisave offer a **laser engraving service** on all of our Littmann® stethoscopes (and many other items of diagnostic equipment). Because we recognise the value and quality of your tools we have invested in the highest quality equipment and technicians to give you a **superior quality of service** and finish. The end result is an **elegant**, precision mark on the surface of your equipment, allowing you to show a little of your personality and, more importantly, **deterring thieves** and making it easier to retrieve your stethoscope should you misplace it. The service **does not delay your order** and next day delivery services are available.
iPAD Saver NF1200 Fully / Semi-Automatic Defibrillator

- Simple and easy operation
- Metronome function and CPR instructions
- Can not be incorrectly operated
- Daily self-tests
- Does not require expensive inspection supervision
- Highest IP 54 rating which means that iPAD is protected against dust and water
- CE approved and highest FDA approval
- Stores 1 rescue attempt - 40 min. recording of the entire rescue process as well as ECG data
- Software can be updated
- Can also be used for children up to 25 kg or below 8 years of age by use of special pediatric pads to be purchased separately.
- 5 year unit warranty and 5 year battery warranty

NF1200  iPAD Saver Semi-Automatic Defibrillator  £750.59

iPAD SP1 Fully Automatic Defibrillator

- Clear and user friendly to operate and maintain
- Guidance at every step with clear illuminated illustrations, calm voice prompts & large responsive buttons
- Pre-connected adult/child “smart” electrode pads
- Pad indicator display illustrates pad life remaining, with verbal instructions to “replace pads” or to “connect pads”
- Simple switch selection from adult to child mode
- The same set of electrode pads for both adults and children
- Automatic adjustment to background noise
- Voice prompts can adjust up to 90 decibels, so it can always be heard.
- CPR detection and metronome
- Ensures CPR is being performed, giving an audible guidance to keep chest compressions going at the correct rate
- Plug-in pad adaptors to stop pad changes when backup arrives

CU-SP1  iPAD SP1 Fully Automatic Defibrillator  £1,275.79

Lifepak CR Plus Defibrillator

- Featuring the same advanced technology trusted by emergency medical professionals – yet simple to use – the LIFEPAK CR Plus automated external defibrillator is designed specifically for the first person to respond to a victim of sudden cardiac arrest (SCA)
- The LIFEPAK CR Plus combines an easy two step operation, just the right level of guidance, and the capability to escalate to 360 joules when needed
- Two steps: turning the device on and applying the electrode pads to the victim. That’s all it may take to make the difference between death from sudden cardiac arrest and a better chance of survival. The CR Plus then takes over, giving clear voice prompts and delivering the shock, without anyone pushing a button

HeartSine Samaritan PAD 360P Fully Automatic AED Defibrillator

The HeartSine samaritan PAD 360P is a fully automatic external defibrillator (AED) that analyzes the heart rhythm and delivers an electrical shock to victims of Sudden Cardiac Arrest in order to restore the heart to normal rhythm. This user-friendly AED provides easy to follow visual and audio prompts to guide the rescuer through pad application.

- **Portable and lightweight.** Up to 56% smaller than other portable defibrillators
- **Rating of IP56.** Providing the SAM 360P defibrillator with the highest level of protection from dust or moisture ingress
- **Resists shock and vibration.**
- **Advanced technology.** The samaritan PAD 360P utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™ Biphasic Technology
- **Features easy-to-understand visual and voice prompts.**
- **One-button operation.** The SAM 360P only has one button – ON/OFF, ensuring straightforward operation
- **Always ready.**
- **Protects both adults and children.** The HeartSine samaritan PAD’s built-in intelligence and unique Pediatric Pad-Pak, which is available for 1-8 years of age (<25 kg or 55 lbs), ensure the appropriate energy level is delivered for children
- **Field upgradeable.**

HeartSine Samaritan PAD 350P Semi Automatic AED Defibrillator

- **Portable and lightweight.** Up to 56% smaller than other portable defibrillators
- **Rating of IP56.** Providing the SAM 350P defibrillator with the highest level of protection from dust or moisture ingress
- **Resists shock and vibration.**
- **Advanced technology.** The samaritan PAD 350P utilizes proprietary electrode technology
- **Features easy-to-understand visual and voice prompts.**
- **Two button operation.**
- **Can also be used for children up to 25 kg or below 8 years of age** by use of special pediatric pads to be purchased separately

Zoll AED 3TM Fully Automatic Defibrillator

The ZOLL AED 3 provides rescuers with unrivalled support during a cardiac arrest. The ZOLL AED 3 builds on ZOLL's reputation for providing rescuers with unmatched support plus a low total cost of ownership while still offering advanced features.

- Fully-automatic AED designed for lay rescuers
- An IP55 rating, the unit is protected from dust and water from low-pressure jets
- Bright and easily visible, central shock button
- USB port transfer data with ease
- Simple tick status indicator shows you if the AED 3 is ready to use
- Warranty of 8 years
- Audio and visual rescue prompts
- Electrode pad life of 5 years
- Memory of 120 minutes
- Clearly coloured, interactive, built in touch screen

HeartSine White Steel Cabinet With Alarm

- Alarmed
- Dimensions 12"H x 11"W x 5" D
- Weight 5 lbs.
- Powered via a 9v Battery

Empty AED Cabinet

The AED Defib Wall Bracket is ideal for increasing the visibility of the AED and make it easily accessible in case of an emergency when seconds can save a life. Suitable for using with the following AEDs units:

- Telefunken FA1 with case
- Powerheart G5
- HeartStart HS1 with or without case
- Zoll AED Plus without case
- LIFEPAK CR Plus without case
- Powerheart G3 without case
- Dimensions: 38cm x 38cm x 20cm

iPad AED SP1 Alarmed AED Cabinet

- Ideal for holding your iPad within an indoor environment. The device is held firmly in place until required
- The cabinet is fitted with an alarm that triggers when opened
- Dimensions: 340 x 335 x 180mm

OMCOMFORT M6 Comfort Blood Pressure Monitor - New Version £54.99

OM3 M3 Comfort Blood Pressure Monitor With 22-42cm Cuff £35.59
Omron HBP-1320 Professional Blood Pressure Monitor

The Omron HBP-1320 is a fully automatic blood pressure monitor for determining blood pressure in medical environments, such as the surgery or in a care facility. The HBP-1320 recognises the occurrence of irregular heartbeats and contributes to the identification of such anomalies which can be solved through more comprehensive diagnostics.

- Motion stop function
- Irregular pulse indicator
- 4 inflation pressure options: Auto, 220, 250 or 280 (mmHg)
- Last reading display function
- Simple operation with 4 buttons
- Ideal for use in the general practice, hospital and nursing home
- Automatically recognises arrhythmias

HBP-1320-UK  HBP-1320 Blood Pressure Monitor  £178.49

Omron HBP-1120 Professional Blood Pressure Monitor

The Omron HBP-1120 is a fully automatic blood pressure monitor that is great as a tabletop device in medical facilities, thanks to its shape and compact size. The measurement can either be done oscillometrically or auscultatorically with the results being very precise.

- Zero indicator function
- Precise measurement results—ideal for use in medical facilities
- Auscultation mode
- This device and cuff can be cleaned with a soft cloth moistened with alcohol
- Recognises irregular heartbeats
- Motion stop function
- Irregular pulse icon
- For auscultatoric and oscillometric measurement
- Safety class II

HBP-1120-UK  HBP-1200 Blood Pressure Monitor  £119.00

Omron M7 Intelli IT Blood Pressure Monitor

- Works with Omron connect - A smartphone app that provides easy display of device measurements, history graphs and averages
- Average 3 readings - Average of 3 consecutive readings in 10 minutes
- Movement sensor - Body movement detection
- Clinically validated - The device has proven reliability and accuracy under vigorous testing procedures by major health organisations
- Cuff wrap guide - Indicates if cuff is wrapped correctly; not too loose or too tight
- Easy blood pressure colour indicator - LED indicator - normal (green) or high (red)
- Irregular heartbeat detection - Indicate if irregular heartbeat is detected
- OMRON connect mobile application for iPhone / Android TM
- Intelli Wrap Cuff Technology - 360 degree accuracy
- Irregular Heartbeat Detection
- 2 User - 100 memories per user

A&D UM-102B Mercury-Free Sphygmomanometer

The world's first hybrid traditional style sphygmomanometer, the UM-102B is an upright version that can be stand mounted, also ideal for use on desktops as it takes up minimal space.

- Auscultatory blood pressure measurement
- Digital readout for pulse rate
- Cuff holder and grip for carrying
- Durable and chemical resistant body
- Full ABS housing light weight body
- Professional cuff and 5 cuff sizes are available for use
- Adjustable display column for easier analysis of result
- Easy battery replacement
- Anti-glare display minimizes reflected light

A&D UA-767S Upper Arm Blood Pressure Monitor - With Adult Cuff

The UA-767S is the successor of the UA-767 series and sets the standard for personal use. This monitor is easy to use and features the %IHB / AFib function with memory upgraded to 60 readings.

- Latex and metal free, SlimFit Cuff (22-32cm)
- %IHB / AFib Indicator to show frequency of Irregular Heartbeat & AFib
- Cuff Fit Error Indicator
- Movement Error Indicator
- WHO Blood Pressure Classification Indicator
- 60-memory + Average Reading

A&D UA-767SW Upper Arm Blood Pressure Monitor - With Wide Cuff

A&D UA-767SW personal blood pressure monitor sets the standard for personal use monitors. Comes with a Wide Range 22-42cm cuff. Personal blood pressure monitoring made easy.

The UA-767SW is clinically validated, with this model being validated to the highest BHS standard (A/A) which means it is accurate to 5mmHg (millimetres of mercury) on both systolic and diastolic readings.

- New latex and metal free, SlimFit Cuff (22-42cm)
- %IHB / AFib Indicator to show frequency of Irregular Heartbeat & AFib
- Cuff Fit Error Indicator
- Movement Error Indicator
- WHO Blood Pressure Classification Indicator
- 60-memory + Average Reading
- Clinically Validated to BHS highest protocol grade (A/A)

A&D UA-1020 Upper Arm Blood Pressure Monitor

This fully featured monitor is equipped with innovations in cuff design, inflation and deflation (3A Technology). To speed up readings users can preset pressure levels or set them to automatic.

The UA-1020 offers the option of TriCheck measurement which allows users to take three consecutive readings and receive an average, complying with the American Heart Association’s latest recommendation.

A&D Medical looked at the common problems experienced when taking blood pressure readings and developed the UA-1020’s Advanced Warning System. This system helps avoid problems letting users quickly get the most accurate readings possible.

- Advanced inflation technology for quicker measurement
- SmoothFit cuff (patent pending) for improved comfort
- TriCheck™ mode for automatic consecutive 3 reading average
- 90 reading memory with AM/PM and overall average
- All readings timed and dated
- WHO Blood Pressure Classification Indicator
- AFib screening
- Soft storage case, batteries and full instructions included

UA-1020 A&D UA-1020 Premier BPM £48.99

A&D TM-2657P Kiosk & Waiting Room Automatic Blood Pressure Monitor

The main reason for the popularity of the TM-2657P is due to its ability to enable patients to ‘self-screen’ and take their own blood pressure readings (and weight using a Class III Medical Scale) saving valuable clinical staff time, and therefore cost. Once installed, the return on investment is often less than 6 months.

Offering a diverse range of connectivity options, the TM-2657P provides fast and accurate measurement and with its compact profile, it is extremely easy to use and is very durable.

Benefiting from extremely accurate Oscillometric BP measurement, it also boasts A&D’s IHB (Irregular HeartBeat Indicator).

- Easy integration into Electronic Patient Record solution (EPR)
- Simple to use, one-touch measurement
- “Torque Controlled Belt drive Method” (TCBM), is a cuff fastening method with high accuracy and durability
- Antibacterial arm cuff cover (included as standard)
- Optional extension communication board (RS-232C and/or Bluetooth)
- Reliable high speed printer with easy paper replacement
- Various print formats available upon user request
- Irregular Heart Beat (IHB) indicated on printout

TM-2657P A&D TM-2657P Fully Automatic BPM £1,340.19

**WelchAllyn** Durashock™ DS54 Sphygmomanometer

**DuraShock™ DS54 Hand Aneroid Bronze Series**
The DS54 is part of the Welch Allyn Bronze Series and provides a traditional thumbscrew-style air release valve.

- With gear-free **DuraShock™ technology**, you can count on the DS54 aneroid to remain in calibration longer than traditional aneroids, providing more **accurate readings** over time and a lower lifetime cost, helping to improve practice efficiencies and your bottom line.

- Welch Allyn’s innovative Durashock™ technology keeps this sphygmomanometer calibrated, even when dropped or bumped, making it **accurate and reliable**
- Shock resistant to maintain accurate blood pressure readings with lower lifetime costs. It can withstand up to a 30” (76cm) drop and **remain in calibration**
- Includes a thumbscrew air-release valve for **slow and gradual air release**
- **5 year calibration warranty**
- Comes complete with an adult FlexiPort cuff and a carry case
- Utilises the **full range of Flexiport BP cuffs** — get the right size for your patients
- **Rubber latex free**
- **Free laser engraving** of text and symbols to personalise your sphyg and avoid theft/loss

**DS54-01-189** DS54 Sphygmomanometer £45.90

**FlexiPort™ Cuffs - With No Tubing**

- Easy one-hand attachment/detachment of tubing with FlexiPort makes changing cuffs much **faster and easier**
- Latex-free material minimises risk of allergic reactions
- Rotatable port **reduces stress** to cuff tubing and port, improving **patient comfort and cuff durability**
- Folded edge reduces risk of cuts and scrapes, **maximising patient comfort**
- Meets all latest clinical guidelines for proper fit from AAMI and AHA

Welch Allyn Durashock DS55 Sphygmomanometer

- Welch Allyn's innovative Durashock technology keeps this sphygmomanometer calibrated, even when dropped or bumped, making it accurate and reliable
- Shock resistant to maintain accurate blood pressure readings with lower lifetime costs. It can withstand up to a 30” (76cm) drop and remain in calibration
- The dial face is laser-engraved for superior accuracy
- Includes a thumb screw air-release valve for slow and gradual air release
- 10 year warranty on the gauge itself
- Comes complete with an adult FlexiPort cuff and a carry case
- Free laser engraving of text and symbols to personalise your sphyg and avoid theft/loss

Heine Gamma G5 Sphygmomanometer - Adult Cuff

- Latex free to minimise allergic reactions
- Complete with a pressure-proof manometer for durability and reliability
- 5 year warranty on the gauge itself
- Includes a large inflation bulb for faster and smoother inflation
- 56mm dial in diameter for increased readability and precision
- Ergonomically designed for both left- and right-handed practitioners.
- Exclusive air-release valve providing fine and precise air release rate adjustment, quick deflation, and extreme durability
- Upper housing made of aluminium alloy with a shock absorbing ring protecting indicator and glass
- Lower housing is moulded of shockproof plastic with shock absorbing, anti-slip coating
- High quality, single-tube cuff with velcro fastener
- Washable

Manual Sphygmomanometers

**Riester Big Ben® Sphygmomanometer**

BHS validated blood pressure precision that lasts a lifetime. Big Ben® round or square – well thought-out options for everyday use. Big Ben® reflects Riester quality, the highest grade analogue sphygmomanometers for precise blood pressure measurement. Big Ben® sphygmomanometers are especially large and sturdy devices designed for intensive use in physicians’ practices and hospitals.

Genuine Riester quality with lifetime calibration for everyday routine. Available as desk, wall, floor and rail design with complete range of cuffs (bladder cuffs or disinfectable one piece cuffs).

- Lifetime measuring technology withstands pressures of up to 600 mmHg
- **Age resistant** specially hardened copper-beryllium membrane
- Generously dimensioned scale (Ø 147.2 mm or 145.5 mm) and high-contrast scale layout for optimum readability; scale up to 300 mmHg
- Spacious basket on the reverse side for tubes and cuffs
- **Latex free** bulb to inflate the cuff
- Non-wearing air-release valve with fine adjustment
- Micro-filter to protect the release valve and measuring system
- **No zero-point fixation required**
- Maximum error tolerance: ± 2 mmHg
- Spiral tube can be extended 3m making it more practical in the clinic
- 10 year calibration warranty

Blood Pressure

**Welch Allyn 7100 24 HR ABPM**

The Welch Allyn ABPM 7100 is an easy-to-use 24-hour ambulatory blood pressure monitor that is designed to help avoid the effects of white coat hypertension, provide accurate sleep blood pressure readings, and tailor drug therapy regimes to your individual patient’s needs.

- Highest clinical validation – BHS A/A
- Intelligent inflation provides excellent patient comfort and improves compliance
- Fully flexible program options for various measurement periods and inflation
- Includes Welch Allyn CardioPerfect™ Workstation software – the professional’s choice
- Easily create, print, and customise detailed reports to meet your needs
- Data can be transferred to all major patient record systems inc. EMIS, Systmone and Vision
- Lightweight, compact and quiet for further patient comfort and compliance
- 100% latex-free and PVC-free cuffs reduce the risk of allergic reactions
- Future-proof investments - upgradable to add new functionality including Central Blood Pressure and Pulse Wave Analysis (Arterial Stiffness)
- Can be integrated with other CardioPerfect™ devices such as ECG and Spirometry to streamline diagnostics
- Supplied with 2 cuffs - adult and large adult
- On-site staff training included

**FREE GIFT!**

FREE 3 cuff set (size 9, 10, 12) worth £153 included!
The **TM-2441 and TM-2440** are both compact & lightweight Ambulatory Blood Pressure Monitors, which incorporate our latest technology gained from over 40 years experience in developing and manufacturing precision measurement equipment.

This new ABPM range was validated in accordance with the new **ISO810601-2** protocol, and the blood pressure accuracy was proven to be +/-3mmHg.

- 24 hour ambulatory blood pressure monitoring range of devices
- **All-in-one monitoring solution:** Ambulatory (ABPM), Home (HBPM), Office (OBP), Automatic Night Blood Pressure (ANBP), Automatic Self Blood Pressure (ASBP) measurement/monitoring
- Lightweight – from 122 grams (excluding batteries)
- Compact – only 66mm x 24.5mm x 95mm (WxHxD)
- Oscillometric measuring method
- AFib+ Irregular Heartbeat detection (IHB) and AFib screening
- Automatically adjusts: Proper Cuff Pressure, Exhaust, End of Measurement
- ‘PatientView 360’ – Multi-sensor tracking of activity, temperature, air pressure
- Battery Power – only 2 alkaline or Ni-MH AA batteries
- Multiple measurement intervals – adapts to patient’s and healthcare professional’s exact requirements
- Bluetooth (BLE) or USB cable data output to computer or printer
- Local memory recording for up to **600** sets of data
- 24-hour clock and calendar
- Waterproof and Dustproof to **IP22 Standard** – designed ‘with the patient in mind’
- Can be integrated into an Electronic Patient Record System (EPR)
- Secure screw thread cuff connection – to avoid accidental disconnection/error readings
- 2 display options: LCD – self measurement display, OLED – Ambulatory monitoring display
- 4 cuff options ranging from 15cm to 50cm
- Accuracy: blood pressure +/-3mmHg; pulse +/-5%
- **Clinically Validated to ISO810601-2**

**AFib+** : Having pioneered IHB (Irregular Heart Beat)/Circadian Rhythm analysis technology in 2001, A&D have further developed this technology on the new Ambulatory Monitor range. The new monitors feature A&D’s new, unique AFib+ technology which allows patient screening for both Irregular Heartbeat and Atrial Fibrillation (AFib).

**PatientView 360**: The new TM-2441 provides the Clinician with a complete and comprehensive multi-sensor monitoring solution, allowing the tracking and recording of additional patient-centric information whilst they are wearing the device.

By recording Activity, Temperature and Air Pressure, the new TM-2441 provides a more insightful view of the patient beyond just blood pressure recording and heart rate information – helping build a better picture for better clinical decisions.
QardioArm Wireless iPhone Blood Pressure Monitor

QardioArm smart blood pressure monitor is clinically validated to accurately measure your systolic and diastolic blood pressure along with your heart rate. Easily performs a triple measurement average for the most precise feedback. QardioArm also has irregular heartbeat detection and will store the data, providing your doctor with more actionable insights into your heart health.

- **ACCURATE & CLINICALLY VALIDATED** QardioArm wireless blood pressure monitor measures your systolic, diastolic blood pressure, heart rate and has irregular heartbeat detection. It is FDA approved and is clinically validated to meet both US and European Standards.
- **SIMPLE TO SET UP** QardioArm portable blood pressure monitor works wirelessly with the free Qardio App, which enhances its functionality with useful and unique features. Simply touch your smart phone or tablet to your QardioArm for a one step setup. It's that easy.
- **EASY TO USE** All of your readings are stored automatically in Qardio's secure, HIPAA compliant cloud. You can view your trends, charts and averages right on your screen for actionable health management at your fingertips.
- **PORTABLE & DISCREET** QardioArm's elegant and compact design means you can always have it by your side, using it anytime, anywhere. In fact, its unique function PLACES allows you to geo-track your readings across location as well as time.
- **INSIGHTFUL** View your results against the World Health Organization chart for an easy-to-understand interpretation and follow your trends with simple graphs and charts. Qardio App empowers you on your way towards better health.
- **USEFUL FEATURES** Set goals and reminders, track irregularities or perform triple measurement averaging. The Qardio App is full of useful features, making blood pressure management quick and easy – the way it should be.
- **ENHANCED ACCURACY** The photo slideshow feature helps you relax during your measurements aiding higher result accuracy and turning blood pressure time into an enjoyable moment. Choose from your own photo library or use our calming image gallery.
- **MULTIPLE USERS AND DATA SHARING** QardioArm bluetooth blood pressure monitor can be paired with up to eight smart phones or tablets at any given time. Share your data automatically with friends and family using the in-app function or send your results to your doctor via email.

**SHARE YOUR DATA**
Keep your doctor informed between visits and let your family know you're doing well.

**SIMPLE TO USE**
Our users love measuring their blood pressure. In fact, they do so 3 times more often than other blood pressure monitor owners.

Diabetes Screening

Huntleigh Ankle & Toe Pressure Kit

The Ankle and Toe Pressure (ATP) kit is a unique combination of DMX Doppler, probes and accessories providing the Vascular, Diabetic or Lymphatic specialist with a system to aid the assessment of arterial disease and neuropathy. ATP Kit includes:

- DMX Digital Doppler
- Recharging kit
- EZXs Widebeam 8MHz Doppler probe
- PPG Probe and adaptor
- Toe cuffs & inflator
- Arm/Ankle cuffs (latex free)
- Trigger operated sphyg
- Neuropen & box of tips
- Educational CD
- Gel

SD Gold Glucose In Blood Meter

The device is tailored to be used outside the lab in the physicians office and in the hospital as well as for self-measurement at home or during sports. SD Check gold uses specially designed test strips from Standard Diagnostics, Inc.

Includes:

- Meter
- Test strips x 10
- Code chip
- Lancet x 10
- Lancing device
- Check strip
- 3V battery
- Control solution

A29381-N  SD Gold Glucose In Blood Meter  £21.69
A29382-N  Glucose In Blood Meter Test Strips x 50  £10.89

A1CNOW+ HbA1c Testing System

- Results in 5 minutes
- Small (5μl) blood sample
- Portable – use anywhere
- Highly accurate results
- Proven results
- Disposable
- Easy-to-use – minimal training
- No maintenance
- National Glycohemoglobin Standardisation Program Certified
- IFCC Certified

HB-3057  A1CNOW Analyser & 10 Tests  £95.89

Owen Mumford Neuropathy Equipment

Peripheral neuropathy cannot be excluded without regular foot screening in conjunction with symptomatic and clinical assessments. Neuropen is an effective aid to this screening programme, meeting and exceeding current practices by being the first dual purpose, pocket size device designed to provide a safe and reliable test.

NT0100  Neuropathy Screening Pen  £16.79
NT0104  Neuropen Monofilaments x 5  £13.99
NT5405  Neurortips x 100  £10.69

000367  Unistik Touch - Contact Activated Lancets - 21G Depth 2.0mm x 100  £6.89
Roche Accutrend Plus Blood Testing Meter

The Accutrend® Plus system is a flexible, hand-held point of care device for the main risk factors of cardiovascular diseases (CVD) and lactate. Convenient and rapid detection of Cholesterol, Glucose and Triglyceride as well as determination of blood lactate level from capillary blood.

Suitable for professional use as well as self-testing.

Product Features:
- LED detector
- Easy to use
- Digital display function
- Memory function – stores up to 100 measured values together with date, time and flags

Product Contents:
- Accutrend Plus meter
- Batteries x 4 AAA
- Instructions for use

CoaguChek Pro II

The CoaguChek Pro II Coagulation Meter features multiple enhancements to the previous generation of CoaguChek devices (CoaguChek XS Plus and CoaguChek XS Pro). It brings the lab closer to the patient in the hospital environment. In addition, it continues to support Vitamin K Antagonist (VKA) therapy monitoring in the professional segments, such as anticoagulation clinics and doctor's offices.

- 2-D barcode reader for patient, operator and controls identification for faster ID entry
- Enhanced connectivity through wireless technology and/or the unique QR code feature
- PT/INR results in approximately 1 minute
- Side and top dosing options with a drop of venous, capillary or arterial fresh whole blood (min. 8 µL)
- From the floors to the OR to the ER to the ICU, PT results are in your hands in real time
- Memory holds 2000 patient and 500 QC results with date and time

CoaguChek Pro II PT Test Strips are not compatible with the CoaguChek XS system.

## BBraun Omnitest® 3 Glucose Meter

- Measurement time is only 3 seconds
- Small sample volume of only 0.3 µL
- Auto-coding eliminates potential user errors
- ** Convenient strip ejector for safe disposal of used test strip**
- Marking function for pre and post meal, medication and tests with control solution
- Memory capacity of **360 readings** with date and time.
- Calculation of three average values in the range between 1 and 99 days
- Big display offers best view of all values
- **Easy data management** with the free of charge online diabetes diary Omnitest® Center or the compatible software DIABASS®
- Meter could be used without being removed from the meter case
- **Solo version includes:** Omnitest® 3 device with batteries and case
- **Kit includes:** Omnitest® 3 device with batteries, Omniance® lancing device, 10 Omnican® Lance soft lancets, 10 Omnitest® 3 test strips, check strip for functional control, meter case
- Measurement accuracy **fulfills the requirements of EN ISO 15197:2013**. The device is intended only for in vitro diagnostic use

Cases & Bags

Elite Community Nursing Bag

- Designed to meet the needs of a busy community Nurse, this bag provides ample room for the safe transportation of instruments
- Padlockable
- Up to 19 isothermal ampoule holder with elastic bands
- Shoulder strap and handle
- Bio-contaminated material container and cold gel packs included
- Free space with velcro detachable dividers
- Dimension: 35 x 25.5 x 14cm
- Capacity: 12L

EB01.008 Elite Community Nursing Bag - Blue £58.29

Elite ‘Call’s’ Home Assistance Bag

CALL’S is one of the most complete home care bags on the market, its layout and large capacity offers the best organization for the transportation of the healthcare products, giving the confidence to the professionals in the scheduled visits.

- Includes a smaller extra bag
- External ID exterior badge holder
- Isothermal compartment for 43 ampoules
- 9 foamed compartments for medical items
- Zipper for padlock
- Hidden and adjustable shoulder straps
- Trolley band
- Dimensions: 40 x 30 x 13cm
- Capacity: 15.4L

EB124 Elite ‘Calls’ Home Assistance Bag £87.69

Elite Medical Sports Bag

A sports medical bag with a practical and comfortable design. Its honeycomb internal layout allows to quickly find the required material at any sports or medical emergency situation.

- Padded handle with velcro fastener
- Cardholder
- Reinforced structure thanks to a webbing strap
- Isothermal compartment for 41 ampoules
- High capacity frontal pocket with elastic bands and wide pocket
- Honeycomb internal layout with internal removable dividers
- Flat pocket for clipboard
- 2 flat mesh pockets for instruments
- External pocket for personal belongings
- Dimensions: 50 x 25 x 31cm
- Capacity: 33.6L

EB06.011 Elite Medical Sports Bag - Black £83.49

EB06.005 Elite Medical Sports Bag - Blue £83.49

- Dimensions: 23 x 37 x 26cm
- Capacity: 23L

£81.49
HEINE DELTA 20T Dermatoscope

- Toggle between polarised and non-polarised illumination modes – Conveniently alternate between polarised and non-polarised views with the press of a button – no exchange of contact plates necessary
- Allows recognition of the “Blink Sign” when observing crystalline structures and presence of milia cysts, increasing diagnostic function
- Optional small contact plate available – Special small contact plate for difficult to access lesions
- Digital documentation capabilities – Connect to major brand SLR digital cameras with HEINE digital camera lens system. Specially designed lenses integrate the camera and DELTA 20T optics together to provide the highest quality imaging possible
- Precision HEINE Optics – High quality, achromatic optical system provides unmatched sharpness and resolution. Focusing system provides for 10 x to 16 x magnification for recognition of even the smallest details and structures
- LED Thermal Management. LED illumination systems require thermal management to ensure long-term performance and product stability. Carefully selected and applied heat-diffusing materials guarantee consistent quality and performance throughout the LED’s lifetime rating of up to 50,000 hours

The set includes:
- DELTA 20T Dermatoscope head
- Contact plate with scale
- BETA Battery Handle
- Dermatoscopy oil 10ml
- Hard case
- Requires 2 x D batteries

HEINE mini3000 LED Dermatoscope Set

- Maintenance-free, no need to ever exchange the LED
- LED Thermal management for a consistent light output throughout the whole working life
- High-performance-LED
- 100% more light compared to Xenon Halogen instruments
- Exclusive Battery Performance Indicator
- Exclusive fade-out function reduces illumination intensity with battery level to let you know when to replace
- Operation time up to 10 hours
- Compact, stylish, ergonomically designed shape
- Shock-proof, non-slip, robust
- High quality engineered design in chrome finish
- Screw on end cap for easy battery change
- Pen style pocket clip with automatic power off when placed in pocket
- Guaranteed 20,000 on/off cycles
- Takes two standard AA size alkaline batteries (included)
- Laser engraving available to the handle end

HEINE NC2 Dermatoscope

- LED HQ
- Contact plate with 10 x magnification and scale
- Perfect combination of precise optics and bright illumination
- Micro-USB connection for charging the integrated Li-ion battery
- Free NC2 App
- Especially large overview field. HEINE precision optics with 27 mm diameter for unmatched sharpness, high-resolution images
- Power supply - Li-ion cell 3.6 V (changeable)
- Completely homogeneous, bright light with true colour rendering for a precise diagnosis
- Maintenance-free

- Includes: USB cord
- Medical approved plug-in power supply
- Carry bag

HEINE mini3000 Pocket Dermatoscope

- Modern and pocket-sized award-winning design - maximum quality, minimum dimensions
- Xenon halogen bulbs for concentrated bright light and uniform illumination
- 20,000 on/off switch cycles guaranteed
- Achromatic lenses which provide distortion-free sharp images of the whole area under examination
- A choice of different compatible contact plates to choose from
- The 2 piece handle and head makes it easy to maintain
- 10x magnification with focusing optics
- Threaded metal connector for long life
- Handle compatible with the full range of mini3000 instruments
- Takes two standard AA size alkaline batteries (included)
- Laser engraving to the clip

Askina Skin Freeze with Applicators
- Sterile and single packed
- Thanks to the swab format the application is easy and can be done very precisely.
- The swabs are no sting and rapid drying and provide a breathable skin barrier designed for stoma and wound care use
- Completely sting free, can be used on damaged skin
- Rapid drying < 30sec
- Transparent: allows skin control
- Offers 3 days protection
- Easy to remove
- Improves the adhesiveness of dressings and fixation tapes
- Does not reduce the effectiveness of incontinent pads
- Does not interfere with the adhesiveness of stoma appliances

CryOmega II Multi-Use Disposable Cryosurgery Device
- **Effective**: Delivers a continuous, direct spray of nitrous oxide (-89°C) to the treatment site. With a lower operating temperature compared to canister-based systems, CryOmega provides clinically effective freezing with pinpoint precision.
- **Convenient**: Simple, hassle-free operation. Activate internal cartridge once and the device is ready for use. No need for additional accessories or replacement cartridges. Up to 300 seconds treatment time per device.
- **Economical**: Low-cost, effective cryosurgery in any clinical setting.
- **Disposable**: Simply dispose of the entire unit when the internal cartridge is empty.

Schuco Hyfrecator 2000 Electrosurgery Unit

- The Hyfrecator is commonly used by dermatologists & GPs in conjunction with curettage for the destruction of small well-defined skin cancers such as basal cell carcinoma. Also for the treatment of: benign moles, common viral warts, seborrheic warts, skin tags, solar keratosis, spider naevi, telangiectasias, venereal warts, etc.
- The Hyfrecator 2000 can be easily combined with a smoke evacuation unit.
- Complete all-in-one ready-to-use low power diathermy machine that allows a wide range of procedures to be performed.
- Handpiece power control, saving procedure time.
- 3 separate power settings (low power, high power and bipolar).
- The patient plate helps reduce the possibilities of shock/trauma caused by inadvertent contact between the patient and the surrounding area or persons. The patient plate also enables the surgeon to reduce the power settings without reducing tissue reaction.
- Hexagonal locking system in the Hyfrecator handpiece and on tips provides total tip security.

30% greater magnification and twice the field of view of a conventional otoscope gives a large, almost complete view of the tympanic membrane.
- Focusing wheel enabling you to zoom in or out on the area in view without the need to move the otoscope, compensating for both the practitioner’s vision and variable length of the patient’s ear canal.
- The Halogen HPX™ or LED lamp provides light output for true tissue colour and consistent, long-lasting performance.
- Fibre optics produce a ring of cool light with no reflections or obstructions for glare free viewing and easier examination.
- Specula ejector for hygienic touch-free disposal of used specula.
- Insufflation port for manipulation of the tympanic membrane.
- A sealed system for pneumatic otoscopy and accurate diagnosis of otitis media.
- Variable illumination strength via the handle rheostat dial.

**Halogen HPX or LED Light**
Allows a completely unobstructed view in true tissue colour.

**Insufflation Port**
Attach an insufflation bulb for pneumatic otoscopy.

**Focus Wheel**
Turn to smoothly focus without the need to move the device.

**Aperture Selection Disc**
Switch easily between 6 apertures via a disc on the head.

**APERTURES & FILTERS**

- **Micro**
  - For quick entry into small, undilated pupils.

- **Small**
  - Provides excellent views of the fundus through undilated pupils.

- **Large**
  - For general examination of the eye through dilated pupils.

- **Polarised Filter**
  - To help reduce corneal reflection.

**Slit**
Used to determine levels of lesions and tumours.

**Red-Free Filter**
For easy identification of veins, arteries and nerve fibres.

**Cobalt Blue**
Used with dye to view small lesions, abrasions and foreign objects.

**Fixation Cross**
For measuring eccentric fixation or locating lesions.

**Half Moon**
Provides a combination of field of view and depth perception.
Welch Allyn Diagnostic Sets

Welch Allyn® LED GS777 Wall Unit - Coaxial Ophthalmoscope & Diagnostic Otoscope With Aneroid Sphygmomanometer

Green Series™ 777 Wall Transformer

- Help reduce facility cost with a more energy efficient product
- Help reduce risk of cross contamination by reducing contact with no on/off switch
- Help improve work flow with contoured handles that automatically turn on/off
- Quickly and easily upgrade from the Welch Allyn 767 Wall Transformer to the GS 777 Wall Transformer

25020 Diagnostic Otoscope

- The Halogen HPX™ lamp provides light output for true tissue colour and consistent, long-lasting performance.
- Fibre optics project cool light to the distal tip with no reflections or obstructions for superior views of the tympanic membrane.
- The wide-angle viewing lens allows for instrumentation under magnification.
- Insufflation port for manipulation of the tympanic membrane.
- A sealed system for pneumatic otoscopy and accurate diagnosis of otitis media.
- Variable illumination strength via the handle rheostat dial.

11720 Coaxial Ophthalmoscope

- Halogen HPX or LED light for true tissue colour and consistent, long-lasting performance
- The coaxial optics produce a shadow-free spotlight, easier entry into undilated pupils and a larger field of view compared to standard ophthalmoscopes
- 6 apertures: micro, small, large, fixation, slit, cobalt blue.
- 2 filters: red-free, polarising
- 28 focusing lenses with a range of -25 to +40 diopters, adjustable via easy-to-reach maywheel
- Rubber brow-rest prevents scratching of eyeglasses
- Variable illumination strength via the handle rheostat dial
- 3.5v C-Cell battery handle with rheostat (batteries included)

Aneroid Sphygmomanometer

- Recessed, laser-engraved dial face with high-contrast pointer provides certified accuracy to reduce errors and improve patient care
- Life time calibration warranty reduces cost of ownership

- New from Welch Allyn, the Pocket LED Ophthalmoscope features Welch Allyn SureColor™ LED lamps, designed to provide the exact light you need for fundoscopic examination. Examine your patients in style, with four colour options to choose from, and optional handle bumper accessory kit.
- Welch Allyn SureColor™ LED lamps come as standard
- Lightest-weight Welch Allyn ophthalmoscope, for the comfort and control you need during examinations
- Fibre optics provide cool light with no reflections or obstructions
- Portable, to help you meet the challenges you face when treating patients

LED Otoscope
- Choose from 4 colours and personalise with unique, interchangeable accessories
- Only drop-resistant pocket otoscope on the market
- SureColour bulb technology – see the true tissue colour
- LED bulbs are rated for up to 20,000 hours of use and do not require replacement
- Get 30 x longer life from 2 AA batteries
- Lightest 2 battery pocket otoscope available
- 2.5 x magnification
- Insufflation port
- Uses same specula as other Welch Allyn otoscopes
- Light Output - 3 lumens
- Warranty - 3 years

Choose one of these colours when ordering:
- Snowberry
- Mulberry
- Blueberry
- Blackberry

Welch Allyn Pocket PLUS LED Diagnostic Set
As the above Pocket Set but with:
- Hard case with set
- Soft case with individual instruments
- Tube of ear specula
- 8 x handle bumpers
- 4 x window bumpers
- Neutral density filter in the ophthalmoscope
- 5 years warranty

Maximum performance and durability in a compact set, that travels easily with you from one patient to the next. Our new Welch Allyn Pocket Plus LED Otoscope and Pocket Plus LED Ophthalmoscope, come standard with Welch Allyn SureColor™ LED lamps, and sets feature a hard carrying case, disposable ear tips and handle and window bumper accessory kit.

Choose one of these colours when ordering:
- Snowberry
- Mulberry
- Blueberry
- Blackberry

## Welch Allyn 97204-VSM Lithium Coaxial Diagnostic Set

### 20000 Diagnostic Otoscope
- The Halogen HPX™ lamp provides light output for true tissue colour and consistent, long-lasting performance.
- Fibre optics project cool light to the distal tip with no reflections or obstructions for superior views of the tympanic membrane.
- The wide-angle viewing lens allows for instrumentation under magnification.
- Insufflation port for manipulation of the tympanic membrane.
- A sealed system for pneumatic otoscopy and accurate diagnosis of otitis media.
- Variable illumination strength via the handle rheostat dial.

### 11720 Coaxial Ophthalmoscope
- Halogen HPX light for true tissue colour and consistent, long-lasting performance.
- The coaxial optics produce a shadow-free spotlight, easier entry into undilated pupils and a larger field of view compared to standard ophthalmoscopes.
- 6 apertures: micro, small, large, fixation, slit, cobalt blue.
- 2 filters: red-free, polarising.
- 28 focusing lenses with a range of -25 to +40 diopters, adjustable via easy-to-reach maywheel.
- 3.5v lithium handle with rheostat.

---

### Welch Allyn 97204-MVPS Lithium PanOptic Prestige Diagnostic Set

#### 23820 MacroView™ Otoscope
- 30% greater magnification and twice the field of view of a conventional otoscope gives a large, almost complete view of the tympanic membrane.
- Focusing wheel enabling you to zoom in or out of the area in view without the need to move the otoscope.
- The Halogen HPX™ lamp provides light output for true tissue colour and consistent, long-lasting performance.
- Fibre optics produce a ring of cool light with no reflections or obstructions for glare free viewing and easier examination.
- Specula ejector for hygienic touch-free disposal of used speculae.
- Insufflation port for manipulation of the tympanic membrane.
- Throat illuminator provides light via a handy built-in penlight.
- 3.5v lithium handle with rheostat.

#### 11820 PanOptic Ophthalmoscope
- 5X larger view of the fundus.
- 25° field of view vs. the standard 5° field of view.
- Halogen HPX light for true tissue colour and consistent, long-lasting performance.
- 6 apertures Axial PointSource™ optics produce a shadow-free spotlight, easier entry into undilated pupils.
- Smoothly and precisely adjust the focus from -20 to +20 diopters, adjustable via easy-to-reach focussing wheel.
- Greater working distance and ergonomic design for maximum comfort.
- Variable illumination strength via the handle rheostat dial.

**Welch Allyn** 777 Green Series Elite Diagnostic Wall Set

### 3.5v Coaxial Ophthalmoscope:
- Halogen HPX light for true tissue colour and consistent, long-lasting performance
- The coaxial optics produce a shadow-free spotlight, easier entry into undilated pupils and a larger field of view compared to standard ophthalmoscopes
- 28 focusing lenses with a range of -25 to +40 diopters, adjustable via easy-to-reach maywheel
- Rubber brow-rest prevents scratching of eyeglasses
- Variable illumination strength via the handle rheostat dial

### 3.5v Fibre Optic Otoscope:
- The Halogen HPX™ lamp provides light output for true tissue colour and consistent, long-lasting performance
- Fibre optics project cool light to the distal tip with no reflections or obstructions for superior views of the tympanic membrane
- The wide-angle viewing lens allows for instrumentation under magnification
- Insufflation port for manipulation of the tympanic membrane

77754 Green Series Elite Diagnostic Wall Set £664.00
77754-L Green Series Elite LED Diagnostic Wall Set £687.00

---
Keeler Practitioner Diagnostic Set

Otoscope
- Large slide aside 2.5x lens for clear view of aural structures and foreign body removal procedures under magnification
- Fibre optics produce a ring of even light for an unobstructed, glare-free view
- Insufflation port for manipulation of the tympanic membrane (bulb not included)
- Smooth, variable illumination strength via the rheostat handle

Ophthalmoscope
- 6 apertures and 1 filter
- Small - allows quick entry into small, undilated pupils
- Medium - provides excellent view of fundus through an undilated pupil
- Large - general examination of the eye through dilated pupil
- Fixation Star - graduated cross-hairs for measuring eccentric fixation or locating lesions
- Slit - used to determine levels of lesions and tumors
- Cobalt Blue - used with fluorescein dye to view small lesions, abrasions and foreign objects on the cornea
- Red-Free filter - filters out red light for easy identification of veins, arteries and nerve fibres
- 28 focusing lenses with a range of -25 to +40 diopters, adjustable via easy-to-reach maywheel
- Soft brow-rest suitable for use with spectacles
- Smooth, variable illumination strength and via the rheostat handle

Keeler Practitioner Ophthalmoscope
- 6 apertures plus a Red-Free filter - filters out red light for easy identification of veins, arteries and nerve fibres
- 28 focusing lenses with a range of -25 to +40 diopters, adjustable via easy-to-reach maywheel
- Soft brow-rest suitable for use with spectacles
- Smooth, variable illumination strength and via the rheostat handle

Keeler Practitioner Otoscope
- Large slide aside 2.5x lens for clear view of aural structures and foreign body removal procedures under magnification
- Fibre optics produce a ring of even light for an unobstructed, glare-free view
- Insufflation port for manipulation of the tympanic membrane (bulb not included)
- Smooth, variable illumination strength via the rheostat handle

Keeler Diagnostic Sets

Keeler Jazz LED Pocket Diagnostic Set

LED Otoscope
- **3x magnification** swivelling precision optics for optimum view
- LED illumination gives 5500K pure white light for true tissue colour
- Low power LED technology gives a practically unlimited service life
- Fibre optics produce a ring of even light for an unobstructed, glare-free view
- **Insufflation port** for manipulation of the tympanic membrane
- Handle powered by 2 regular AA alkaline batteries

LED Ophthalmoscope
- 6 apertures
- 18 focusing lenses with a range of -20 to +20 diopters, adjustable via easy-to-reach maywheel
- **Soft brow-rest** suitable for use with spectacles
- Renowned high performance Keeler optics with aspherical lens

1702-P-1096 Jazz LED Pocket Diagnostic Set £180.79

Keeler Standard Diagnostic Set

Otoscope
- Closed head design particularly suited to pneumatic testing
- Removable 2.5x magnifying lens to allow the introduction of small instruments
- Includes insufflation port

Ophthalmoscope
- The positive maywheel lens control allows you to click through lens powers from +40D to -25D
- Two diagnostic beams
- A red free filter for enhanced vessel examination can be used with both diagnostic beams
- The integral soft brow rest allows for easy positioning

1729-P-1018 Standard Diagnostic Set - AA Battery £235.89

Keeler Pocket Diagnostic Set (AA Battery)

Otoscope
- **Ideal for domiciliary or ward use**
- Closed head design particularly suited to pneumatic testing
- 2.5x magnifying lens removable to allow the introduction of small instruments
- Disposable specula supplied
- **Security** from the strong metal pocket clip
- Includes insufflation port

Ophthalmoscope
- Full diagnostic capability in a pocket sized instrument
- Ideal for domiciliary or ward use or as a “second” instrument
- **Security assured** from the strong metal pocket clip
- A total of 6 diagnostic beams
- Includes a slimline AA battery handle with rheostat

1702-P-1037 Pocket Diagnostic Set £212.39

HEINE BETA 200S LED Ophthalmoscope Set

Exclusive dustproof design protects the precision optical components and ensures maintenance-free operation. The BETA 200 / 200 S Ophthalmoscopes are the only instruments with an aluminium frame system. Optical components are flush-mounted on a cast aluminium frame, eliminating misalignment and making the instrument shock-resistant. The BETA 200 S LED has virtually unlimited hours of working life (up to 100,000 hours). No need to ever replace bulbs. Maintenance-free for a lifetime. The BETA 200 S Ophthalmoscope accommodates higher refractive errors with a 28 single lenses Rekoss Disc and features a 74 single dipter design on a non-continuous wheel avoiding extreme diopter jumps (-36D to +38D). Exclusive continuous brightness control between 100% and 3 (patent pending) with one-finger operation. No stray light due to the recessed, multi-coated viewing window – eliminates distractions. Precise one-hand control of the instrument. Ergonomic design offers flexibility while examining. Suitable for large as well as small or undilated pupils. Ergonomic design fits the orbita comfortably, and blocks out ambient light.

- LED HQ
- Information about the apertures
- Aspherical optical system
- Aluminium frame system
- 74 single dipter steps
- Eliminates corneal reflex
- Ideal for small pupils
- Dustproof

BETA 200S LED Ophthalmoscope
- Features a unique optical system with aspherical optics. Corneal and iris reflexes are eliminated
- XHL Xenon Halogen bulbs for accurate colour rendering and bright, clear illumination
- Ergonomical shape to fit the orbita perfectly
- Maintenance-free dust-proof housing
- Recessed multi-coated viewing window
- Mounted on a metal chassis for durability and precision
- Precision spherical HEINE optics produce excellent quality images of the entire area under examination
- 27 focusing lenses with a range of -35 to +40 dipters, adjustable via easy-to-reach maywheel
- Rubber brow-rest prevents scratching of eyeglasses

| Beta 200S LED Set With USB | C-261.28.387 | £505.39 |

FREE LASER ENGRAVING!
HEINE mini3000 Diagnostic Set

**mini3000 Fibre Optic Otoscope**
- 20,000 ON/OFF switch cycles guaranteed.
- Viewing window with 3x magnification and optimized casing surface for razor-sharp images and minimal reflection. Swivelling viewing window built into instrument.
- Pneumatic testing of the tympanum mobility by using the insufflation port and an optional connector.
- Attachment clip with integrated on/off switch. Switches off automatically when returned to the pocket.
- Replaceable batteries. Size AA, or optional rechargeable battery with mini NT table charger.
- 2-piece handle and head. Easy to maintain, flexible.
- Award-winning design. Maximum quality with minimum dimensions.

**mini3000 Ophthalmoscope**
- 5 different apertures. A full-function instrument including fixation star.
- Grey filter for light-sensitive patients.
- Range of lenses: 18 lenses from -20 D to +20 D.
- Exclusive fade-out function reduces illumination intensity with battery level to let you know when to replace.
- 5 year warranty

HEINE K180 2.5v Combined Diagnostic Set

**K180 Fibre Optic Otoscope**
- Constructed of light, high-impact polycarbonate and 3x magnification scratch-resistant acrylic viewing window.
- Durable, long-lasting and easy to clean.
- Instrument head matte-black inside. Eliminates reflexes.
- Distal Fibre Optic (F.O.) illumination with XHL Xenon Halogen Technology. Homogenous, reflex-free illumination of ear canal and tympanum.

**K180 Ophthalmoscope**
- Precision spherical HEINE optics. Corneal and iris reflexes are eliminated.
- XHL Xenon Halogen Technology. Bright, white light. Clear retinal image.
- Range of lenses: 27 lenses from -35 D to +40 D. Brilliant image even at high corrections.
- High-impact polycarbonate housing for durability.
- Choice of 5 apertures. For both large and small pupils. Choice of fixation star or cobalt blue filter for corneal examination.
- Ergonomical shape. The instrument fits the orbita comfortably.

HEINE mini3000 LED Diagnostic Set with Charger

- **mini3000 LED Pocket Otoscope**
  - A contemporary, precision engineered pocket ophthalmoscope.
  - High performance LED bulbs for **accurate colour rendering** and bright and homogeneous illumination.
  - Maintenance-free - no need to ever replace the LED bulb.
  - Precision HEINE optics produce **excellent quality images** of the entire area under examination.
  - Exclusive battery performance indicator which fades according to the current charge of the battery.
  - Operation time of **up to 10 hours**, with batteries that need to be charged less often.
  - **Attachment clip** with integrated off/on switch.
  - **Easy to maintain** two-piece handle and head.
  - Award-winning design - maximum quality with minimum dimensions.
  - **5 different apertures** including a fixation star.
  - **18 focusing lenses** with a range of -20 to +20 diopters, adjustable via easy-to-reach maywheel.
  - Includes rechargeable handles and NT mini charger

- **BETA400 F.O Otoscope**
  - Features a **unique optical system** with aspherical optics. Corneal and iris reflexes are eliminated
  - XHL Xenon Halogen bulbs for **accurate colour rendering** and bright, clear illumination
  - Ergonomical shape to fit the orbita perfectly
  - Maintenance-free dust-proof housing
  - Recessed multi-coated viewing window
  - Mounted on a metal chassis for **durability and precision**

  - Rubber brow-rest prevents scratching of eyeglasses

- **BETA200 Ophthalmoscope**
  - Offers **large field of view**
  - Provides sharp spatial images in a convenient working range
  - **Multi-coated precision optics**
  - **Fiber Optic Illumination**
  - Ensures homogenous, very bright illumination and an unobstructed view of the ear canal and tympanum

- **HEINE EN200 Wall Transformer with BETA400 LED F.O Otoscope & BETA200 LED Ophthalmoscope**
  - **BETA400 F.O Otoscope**
    - LED with **virtually unlimited hours of working life** (up to 100,000 hours)
    - No need to ever replace bulbs
    - **Maintenance-free for a lifetime**
    - Exclusive 4.2 x magnification
    - More detail of anatomical structures and easy recognition of foreign bodies
    - **Exceptional depth of field**
    - Provides sharp spatial images in a convenient working range
    - **Large field of view**
    - Gives the necessary overview and perfect orientation during examinations
    - Multi-coated precision optics
    - Offer high resolution and distortion free images
    - **Fiber Optic Illumination**
    - Ensures homogenous, very bright illumination and an unobstructed view of the ear canal and tympanum

Riester e-scope® LED Diagnostic Set

**Otoscope**
- Sealing precision optics pivotable to both sides with **triple magnification for optimum view**
- Sturdy ear speculum receptacle in **hardwearing hygienic metal**
- Compatible with ear speculae from other renowned manufacturers
- Suitable for performance of **pneumatic tests** (supplied without connector and insufflator)
- Brilliant 3.7v LED illumination
- Available in a choice of **black or white** finish
- LED burns for at least **20,000 hours**

**Ophthalmoscope**
- Innovative 3.7 V LED illumination for **higher-contrast and more efficient diagnosis**
- Dioptre disc with 18 corrective lenses (+/- 1, 2, 3, 4, 6, 8, 10, 15, 20 dioptres)
- **Easy-to-use** aperture wheel with six different apertures (fixation star, large circle, small circle, red free filter, blue filter, semi circle)
- **High performance optics** with aspherical condenser lens
- Spectacle protection
- Parallel optical path
- Dust protected
- **Plus free laser engraving**

*For uniform illumination of the examination field with pure white light (5500 K). The LED illumination shows colours as they really are. Helpful for efficient diagnostics plus an almost unlimited service life.*

2130-203 e-scope LED Diagnostic Set - White £99.99
2131-203 e-scope LED Diagnostic Set - Black £99.99

Diagnostic Sets

“Nearly unlimited lifetime with the highest luminosity: these advantages make the LED technology used with the ri-scope® L so unique. Moreover, the lamp inside the ri-scope® L never gets hot, provides true-colour and even illumination of the area under examination and is practically guaranteed never to fail, in contrast to conventional halogen or xenon lamps.”

**Luxamed Auris LED Otoscope - 2.5v**

- **Innovative otoscope** in a pocket size.
- Automatic switch off after 3 minutes to save battery life.
- Life expectancy of LEDs: approx. 100,000 hours
- Intensity of illumination: approx. 10,000 lux.
- Colour temperature: approx. 4,000 K.
- Illumination is provided by 6 LEDs (concentric) in a ring with no fibre optics which means your field of vision is not restricted.
- Electronic ON/OFF push-button switch.
- Pivoting 3-fold magnifying glass with locking function.
- Insufflation port for pneumatic testing.
- Two-component handle reinforced by aluminium and fibre-glass for optimum strength.
- Powered by two AAA batteries making it convenient and portable.
- 45 day money back trial
- Includes 100 free specula

**Riester Ri-Scope L LED Diagnostic Set**

Riester Advanced Diagnostic Set with 3.5v Otoscope and Ophthalmoscope including LED bulbs and hard case. Type C battery handle for 2 Li batteries.

**Features and Benefits**

- Handy diagnostic instruments in one package
- More efficient LED diagnostic for higher contrast
- Rhetoric with LED diagnostic for higher contrast
- Rhetoric with automatic switch off
- Durable lithium ion batteries
- Renowned high performance/reflection reduced optics (optical glass aspherical lenses)

**Specifications**

- 3.5v LED Advanced L3 Otoscope
- 3.5v LED Advanced L2 Ophthalmoscope

**LED illumination**

- For uniform illumination of the examination field with pure white light (4,000 K). The LED illumination shows colours as they really are. Helpful for efficient diagnostics plus an almost unlimited service life.

Huntleigh SR2 Digital Obstetric Doppler

Introducing the Sonicaid SR2 Digital Doppler, Rate and Trace display Doppler with a fixed 2 MHz waterproof probe. This high sensitivity handheld digital doppler is intended for general purpose screening of the FHR at all stages of pregnancy from as early as 8-10 weeks, right through to labour.

- Large FHR numeric or trace modes - Offers enhanced FHR screening with high visibility backlit colour screen with large numbers & “TRACE” display view.
- Improved Audio - Dynamic Digital Noise Reduction and gel filter
- Improved Performance - Specially designed high performance probes
- Rechargeable - Reduced running costs

| SR2   | SR2 Digital Waterproof Doppler | £449.29 |

Huntleigh SR3 Digital Obstetric Doppler

Introducing the Sonicaid SR3 Digital Doppler, Rate and Trace display Doppler with a fixed 3 MHz waterproof probe. Selected as the preferred model by many clinicians for early pregnancy use as well as general purpose screening gestation.

- Large FHR numeric or trace modes - Offers enhanced FHR screening with high visibility backlit colour screen with large numbers & “TRACE” display view
- Improved Audio - Dynamic Digital Noise Reduction and gel filter

| SR3   | SR3 Digital Obstetric Doppler  | £449.49 |

Huntleigh D920 Audio-Only Fetal Doppler

The D920, with its high sensitivity probe and excellent audio quality, ensures easy and reliable detection throughout pregnancy.

- High sensitivity probes for improved ease of use
- 2MHz waterproof transducer suitable for use in a water birthing environment
- Battery low indicator
- Easy clean transducer for improved infection control
- Belt clip to aid handling
- 140mm x 74mm x 27mm
- Weight 295g
- 5 year warranty

| D920  | Audio-Only Dopplex With Fixed Probe | £326.59 |
### Dopplers

#### Huntleigh D900 Non-Directional Vascular Audio Only Doppler

The Dopplex D900 is a **low cost** audio only, non-directional doppler, **principally used for ABPI measurements** by community nurses and doctors in their role of leg ulcer management.

- Clear audio sounds of blood flow or foetal blood heart rate (used with obstetric probes)
- Enhanced battery management
- Compatible with the complete range of vascular probes
- When used with Easy 8 probe it is excellent for the infrequent user in locating brachial and pedal arteries
- Large carry bag
- Headphones included
- Probes sold separately

### Huntleigh SD2 Bi-Directional Vascular Doppler

The Dopplex SD2 provides bi-directional vascular information to the vascular professional including the display of flow direction. It is **ideal for clinical specialists wishing to conduct advanced doppler studies**.

- **Compatible** with all high sensitivity vascular probes (audio only with OP2 and OP3)
- **Ideal for ABPI assessment**
- Provides bi-directional blood flow information
- Enhanced stereo audio output
- Large carry bag
- Stereo headphones included
- Doppler probe ordered separately

Welch Allyn® ELI150C Resting Electrocardiograph

The compact and lightweight ELI150C Electrocardiograph provides comprehensive functionality in an ultra-portable device. Its widely recognized Mortara VERITAS™ resting ECG interpretation algorithm uses gender-specific and adult and pediatric criteria to provide a silent second opinion for resting ECG interpretation. The ELI 150c resting ECG offers a choice of either the innovative WAM™ wireless acquisition module or the AM12™ acquisition module. Both include replaceable lead wires, lead fail indicator and remote control with buttons for ECG acquisition and rhythm printing. And with the Mortara ECG Safe platform, it’s easy to store ECGs for convenient viewing and file management from computers and mobile devices, without the need for special software or IT support.

- High-res color display provides 12-lead ECG preview and post-acquisition review
- Buttons for ECG acquisition, rhythm printing & ECG transmission/order retrieval
- Choice of wired or wireless acquisition
- Captures best 10 seconds of ECG data from memory, reducing need for repeat ECGs

**Wired Cable Module:**
- AM12 Patient Cable Module, USB
  - ELI150C-ACB-AAABX
  - Host Port, XML & PDF
  - £1,836.00

**Wireless Cable Module:**
- Wireless Patient Cable Module, Wireless LAN, XML & PDF
  - ELI150C-BCB-AAGBX
  - £2,652.00

---

Welch Allyn® ELI230 Resting Electrocardiograph

The ELI230 Resting ECG offers complete functionality in a compact, portable device. It is a cost-effective ECG solution offering accurate and reliable adult/pediatric ECG interpretation and full-size printouts. The color display provides real-time preview of three, eight or twelve leads of ECG data, as well as post-acquisition review of acquired ECG. And the VERITAS™ resting ECG interpretation algorithm uses gender-specific and adult and pediatric criteria to provide a silent second opinion for diagnostic interpretation.

- Captures best 10 seconds of ECG data from memory, reducing need for repeat ECGs
- Optional wireless data acquisition increases workspace flexibility
- Choose between WAM™ wireless acquisition module or the AM12™ acquisition module

**Wired Cable Module:**
- Wired AM12 Patient Cable Module
  - ELI230-BCB-AAAAX
  - £1,122.00

PC-Based ECGs

seca Bluetooth/USB PC-Based ECG Machine

- Acquires the ECG on any computer / laptop within your healthcare network. Allowing you to directly transfer the patient’s ECG report into your Electronic Medical Records (EMR). Compatible with all leading EMR systems e.g., emis, SystmOne, vision, isoft and others.
- Fully integrated with Systmone as standard. No annual licence fees, no limits on the number of PCs the software can be installed onto.
- Software compatible with Windows 10.
- seca cardio software automatically exports a PDF ECG file to a destination of your choice - enabling ease of attachment to the EMR or for e-mailing to specialist ECG centres and use in tele-health applications.
- High quality recordings of all twelve leads with a sampling rate of up to 4000 Hz, for viewing, analysis, reporting and printing on every PC in the network. Clearly arranged choice of A4 reports with one click including the popular 4x3 with lead II rhythm strip
- Impedance measurement: all electrodes highlighted with automatic quality indication to ensure the perfect ECG.
- Advanced software filters for baseline, electrical interference, anti drift and muscle tremor interference, providing clear traces
- Digital pacemaker detection
- Size: 16 x 8.5 x 2.5cm
- Weight: 300g
- 3 year warranty
- Extended warranty option available for 5 years peace of mind. CT320 - £349.00, CT321 - £399.00

**Welch Allyn**® **CardioPerfect™** PC-Based Pro Resting ECG Machine

**Improve accuracy**, enable immediate access to patient diagnostic information and enhance your practice’s efficiency with the Welch Allyn PC-Based Resting ECG, part of the **CardioPerfect Workstation suite**. Automatically transfer patient information and test data into most EMRs without redundant work steps, misidentified patients, or delays from copying, scanning and shredding ECG reports. Use this **upgradeable system** to leverage your investment by adding stress ECG, spirometry and/or ambulatory blood pressure (ABPM) modules at your convenience to give you complete cardiopulmonary testing capabilities.

- Takes 12 lead interpretive ECGs straight into the practice PC/laptop
- Have peace of mind with your patient data, with this wired ECG device
- **CardioPerfect Software included** – the professional’s choice. Advanced, yet easy to use, interpretive software
- **Compatible** with all leading electronic medical record systems (EMR), including EMIS, SystmOne and Vision
- **Reduce transcription errors** through direct transfer of tests into any EMR
- Programmable report formats that print onto A4 paper using any office printer
- Allows you to compare against previous recordings
- Can perform extended ECG recordings up to 5 minutes
- Supplied with 5 metre USB cable
- **Free training** for practice staff

CPR-U15-EB-D  CardioPerfect™ PC-Based ECG  £2,046.00

**BEST SELLER!**

**Features**

- Use with a single computer or enterprise wide network, with or without an EMR
- Help improve patient care by overlaying previous ECGs to spot differences
- Improve exam efficiency with a 4x3 preview on screen prior to printing
- High quality and reliable readings help eliminate repeat ECGs
- Automatic ECG measurements speed physician review and interpretation
- Interpret and edit report on screen for patients down to 1 day old
- Easily monitor patients with intermittent arrhythmias Programmable report formats print on 8.5 x 11 paper, using your current printer
ECGs Tablet/Touchscreen

**Spacelabs Lifecard CF 24/7 Holter Recorder**

- Diagnose arrhythmias before they become an everyday occurrence with 7 day continuous ECG
- 24hr/48hr or 7 day continuous recording capability
- Fully compatible with the Pathfinder Holter Analyser, in use in 93% of Cardiology centres
- On board ECG display
- Advanced 12 bit technology
- Splash proof, rated IPX4
- Low running cost – single AAA battery
- Fast reliable hook up using integral voice recording feature
- Compact flashcard technology – no risk of data loss
- Reports can be easily attached to all leading EMR systems including EMIS, System One, Vision & iSOFT, as a PDF file

**secas CTCardioPad Tablet ECG**

- Download a high quality PDF to your EMR - EMIS, SystemOne, Vision
- Full on-screen ECG preview saves paper
- Simply touch the large 10.4” or 7” high resolution colour display to record, select and print the highest quality ECGs faster than you can imagine
- Advanced processing, Instant start-up provides immediate availability - ECG processed, interpreted and printed in less than 3 seconds – ideal for a busy clinic/emergency use
- Lightweight and portable, together with the high capacity battery, allows easy transport of the secas CTCardioPads
- The screen is able to clearly display all 12 leads at the same time
- High quality built-in thermal printer
- Enter patient data quickly and accurately using the touch screen
- Get complete clinical information with the interpretation software
- Capture and store 5 minutes of uninterrupted 12 lead data to document intermittent arrhythmias
- High volume internal memory – storage of up to 350 ECGs
- Stored ECGs can be exported to EMR/HIS as a PDF
- Seca CTCardioPad can be configured to automatically print, save, transfer and retrieve a previous ECG at the touch of a button
- Supplied complete with mains cable, patient cable, pack of paper, 300 disposable electrodes and alligator clips
- 3 year secas warranty and technical support helpline
- Extended warranty option available for 5 years peace of mind. CT7 - £375.00, CT90 - £499.00

QardioCore - Wireless Continuous ECG Monitor

WEARABLE ECG/EKG
UNLIKE ANY OTHER

SHARE YOUR DATA
WITH YOUR DOCTOR

Based on breakthrough technologies, QardioCore records your heart performance with the medical precision your doctor can trust.

QardioCore is the wearable ECG monitor unlike any other.
- Clinically validated, continuous ECG.
- No gels, patches or wires, easily clips on with a comfortable strap.
- Water resistant.

QardioCore Powerful Features
- QardioCore is 3 lead wireless continuous ECG monitor, clinically validated to both European and US standards.
- It takes multiple unique measurements such as body temperature, galvanic skin response to detect stress levels, heart rate, heart rate variability, respiratory rate and activity tracking - all in one device.
- Suitable for those who need to monitor their cardiac conditions such as Atrial Fibrillation, or for athletes wanting to track their performance.
- Unlimited storage of all measurement in a secure cloud, integrated with all major EHR systems.
- Doctor/Pharmacist automatic data sharing options for easy remote patient monitoring.
- Fully integrates with the Qardio product family for powerful 360 heart health management.
- Can also be used as part of QardioMD solution package - a doctors' web-based dashboard for the most efficient multi-patient real-time monitoring and analysis.
- 3 Year Warranty.

**Connex® Spot Monitor**

**SKU: 71WT-4**

Welch Allyn Connex Spot Monitor with SureBP®, Pulse Oximetry and SureTemp Ear Thermometer

**ONLY £1,453.00!**

**Quick Overview**

The Connex® Spot Monitor features an easy-to-use, vivid touchscreen display and provides accurate vital signs measurement including blood pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. The device connects wirelessly to your EMR and sends vitals to the patient chart from the point of care to help improve efficiency. Its upgradeable design and custom configurations include optional wall unit integration, industry-leading thermometry and pulse oximetry choices, connectivity and other mounting/mobility options. In addition, the Accessory Power Management Stand with WhisperDrive™ technology features additional power backup, providing up to 17 hours of on-time, alleviating the need to charge the monitor as frequently. Ships standard with one Adult and one Large Adult cuff.

**Features**

- SureBP® technology can provide BP in only 15 seconds
- Single sign-on options available for quick, secure clinician login
- Connex Scoring App calculator for custom protocols (e.g., NEWS, MEWS)
- BP averaging to help ensure accurate hypertension diagnosis
- Supports resident list workflows for long-term care settings
- SureTemp® Plus or Braun ThermoScan® PRO 6000 Thermometry
- Partnerships with more than 90 leading EMRs including Epic® and Cerner®
- Choice of leading SpO2 technologies: Masimo®, Nellcor® or Nonin®
- Add to integrated wall system for complete patient exam workflow
- Scale connectivity to Detecto, Health o meter® and SECA scales
- Mobile stand option includes work surface with integrated battery for extended usage

**ELI 150C Resting Electrocardiograph**

**SKU: ELI150C-ACB-AAABX**

AM12 Patient Cable Module, USB Host Port, XML & PDF

**ONLY £1,836.00!**

**Quick Overview**

The compact and lightweight ELI 150c Electrocardiograph provides comprehensive functionality in an ultra-portable device. Its widely recognized Mortara VERITAS™ resting ECG interpretation algorithm uses gender-specific and adult and pediatric criteria to provide a silent second opinion for resting ECG interpretation. The ECG offers a choice of either the innovative WAM™ wireless acquisition module or the AM12™ acquisition module. Both include replaceable lead wires, lead fail indicator and remote control with buttons for ECG acquisition and rhythm printing.

**Features**

- High-res color display provides 12-lead ECG preview and post-acquisition review
- Captures best 10 seconds of ECG data from memory, reducing need for repeat ECGs
- Buttons for ECG acquisition, rhythm printing & ECG transmission/order retrieval

Airmed 1000 Nebuliser

The Airmed 1000 has been developed for the successful treatment of asthma, allergies and other respiratory conditions.

It creates a stream of air that travels through the driveline to the nebuliser. When air enters the nebuliser, medication is converted into an aerosol mist for easy inhalation.

Product Features & Benefits:

- Includes a 2 year guarantee
- Remains cool during constant use
- Compact and lightweight
- Reliable performance
- Easy carrying handle
- Comes complete with a starter pack
- Suitable for clinic and home use

CC5900 Airmed 1000 Nebuliser £37.69
Omron CompAir C28P Nebuliser Kit

The CompAir Plus combines a short inhalation time with efficient delivery. The C28P is designed for adults who want to maintain an active, healthy lifestyle.

Features: short inhalation time, efficient lung deposition, fast and convenient, long-life compressor, high nebulisation rate, V.V.T nebuliser technology, water-protected switch.

Includes:
- Compressor Nebuliser
- Nebuliser (V.V.T.) Kit
- Air Tube (PVC, 200cm)
- 5 x Spare Air Filters
- Mouthpiece
- Adult Mask (PVC)
- Child Mask (PVC)
- Nosepiece
- Carrying Bag

Omron MicroAIR U100 Mesh Nebuliser

Instant therapy in your pocket
Now, relief is at your fingertips, even when you're on the road. The battery-operated MicroAIR U100 is compact, travel-ready and easy to reach for whenever you need it.

Virtually Silent
Deliver your own treatment without making a sound. While traditional nebulizers can be loud, the MicroAIR U100 is virtually silent. Simply press one button, breathe naturally, and slip back into your bag when you're done—all without turning any heads.

More flexible
Get relief from any angle or position. The MicroAIR U100 helps deliver efficient treatment, whether you're lying down, standing up, or dangling upside-down from monkey bars. All you have to do is find the position that's most comfortable for you.

MD300-D Finger Pulse Oximeter

Small and compact in size with low power consumption - ideal for the spot checking of blood oxygen saturation levels and pulse rates. The MD300-D comes with a bright, organic LED display that offers superb visibility in all light conditions including direct sunlight.

- Clear OLED colour display
- The SpO2 (pulse oximetry %) and pulse rate can be displayed in 4 rotations
- Option of displaying the pleth waveform in two formats
- Simple and convenient with one button operation
- Compact and lightweight
- Low power consumption
- Brightness of the display is adjustable (10 levels)
- Signal strength indicator
- With FREE silicone carry case!

MD300-C5 Paediatric Finger Pulse Oximeter

- Specially designed for paediatric patients
- Low cost
- Clear, bright colour OLED display
- Display can be viewed in 4 rotations
- Adjustable brightness; 10 levels
- Pleth waveform, displayed in 2 formats
- Signal strength indicator
- Easy to use; 1-button operation
- Automatic power-off when finger is removed

Includes:
- Silicone protective cover
- Lanyard
- Hinged storage case
- Batteries
- Operator's Manual

MD300-C15D Finger Pulse Oximeter

- LCD display
- Data displayed: Oxygen saturation, pulse rate, pulse indicator and bar graph
- Indicators: Signal strength, battery status and finger out
- Standards: CE Class IIa
- Measuring Range: SpO2 70 – 100% Pulse Rate 30 – 250 bpm
- Dimensions: 58 x 32 x 34mm (L/W/H) 50g (including batteries)
- 2 year warranty

Includes:
- 1 x Finger Pulse Oximeter
- 2 x AAA Batteries
- 1 x Lanyard
- Operator Manual

MD300-C5 Paediatric Finger Pulse Oximeter - Frog

Includes:
- Silicone protective cover
- Lanyard
- Hinged storage case

**Nonin Onyx Vantage 9590 Finger Pulse Oximeter**

- Patented auto ON/OFF when finger is inserted/removed
- Unparalleled reliability and accuracy
- No routine maintenance or recalibration required
- Easily positioned on fingers from small child to large adult
- Compact enough to carry at all times and weighs only 60g
- Highly efficient now with 6,000 spot checks from 2 x AAA batteries which are supplied
- The clear LED display can be read in any environment, in any light
- Fully serviceable and repairable even after expiry of the 5 year “Drop Inclusive” warranty
- Battery operating life (fully charged): 18 hours continuous use
- ISO 80601-2-61 compliant

**Nonin 9550 Onyx II Finger Pulse Oximeter**

- Unique patented auto ON / OFF when finger is inserted/removed
- Unparalleled reliability & accuracy
- No routine maintenance & now with internal encapsulated spring
- Fits the widest range of fingers from 8mm to 26mm thick
- Unique pulse quality indicator and larger brighter display
- Self-contained unit means no sensors or cables to go wrong
- Compact enough to carry at all times and weighs only 60g
- Now with improved 5,000 (15s) spot checks from two AAA batteries
- Clear LED display - larger LEDs - can be read in any environment from any angle
- Military field-tested for durability in the toughest environments
Vital Signs

Huntleigh Smartsigns Compact 300 Monitor

The SC300 is a new mains / battery operated compact spot check vital signs monitor; this powerful, flexible platform offers healthcare professionals a range of measurements which includes non-invasive blood pressure, pulse rate, pulse oximetry and wireless tympanic temperature.

Equipped with a long life 12 hour high capacity battery pack, the SC300 can be used in any healthcare setting.

Patient status is displayed on the 6" colour coded digital display enabling clinicians to make critical decisions at the point of delivery.

The SC300 is suitable for Adult, Paediatric or Neonatal patients.

Basic configuration fitted with:
- Clear 6" digital display with large easy read information
- Wireless temperature option (up to 10m range)
- 50 Measurement memory
- Minimum number of controls
- Long life battery pack (12hrs)
- Choice of SpO2 technologies: Own Brand / Nellcor

RVS-100 Advanced Vital Signs Monitor

The RVS-100 is an advanced vital signs monitor which offers pulse oximetry, blood pressure and temperature measurements. The device has ‘Monitor’, ‘Spot Check’ and ‘Triage’ profile options and a high performance touchscreen. The RVS-100 can communicate through a wired or wireless connection to the hospital's EMR, according to the HL7 standard.

- 3 measurement modes (Monitor, Spot-check, Triage)
- High-sensitivity 8" TFT colour touch screen with self-explanatory user interface and integrated help-function
- Displays SYS, DIA, MAP, Pulse, Temp, Plethysmogram
- Clinical grade NIBP including averaging mode (2-5 readings)
- Riester, Masimo or Nellcor Oximax SpO2
- Predictive Thermometer (Filac 3000)
- Connectivity with the EMR - follows the HL7 standard
- LAN Connectivity as standard
- Programmable alarms (audible, visible) with 3 priority levels
- Supports nurse call RJ11 port
- Available as wall, desk and floor model
- Internal memory for 5,000 measurements
- Li-ion battery with up to 17h ON-time
- 2 year warranty

Accessories Supplied
- NIBP extension tube
- 2 cuffs (adult & adult large incl. connectors)
- SpO2 sensor adult
- SpO2 extension cable
- Oral temperature probe
- Probe cover

RV-200 wall unit, complete with LED otoscope & ophthalmoscope (with locking heads) - available with more information online.
Introducing the
287 Ultrasonic Measuring Station

Ideal for waiting rooms and for patient self-screening.

Maximum Speed
Independent measuring process in just a few seconds with the assistance of the voice guidance and user-friendly product design.

The white LED light on the measuring head signals readiness for measurement.

Ultimate Flexibility
Networkable measuring station through seca 360° wireless technology.

All measured values can be wirelessly transmitted into EMR systems

The optional wireless printer is easy to mount.

Individual patient printout possible with seca directprint.

Superior Quality
Robust and very durable construction with column elements made of aluminium.

Non-slip tread made of easy-to-clean safety glass.

Scale with 300kg capacity and 50g fine graduation.

Optional Extras

465 seca 360 Wireless Printer £309.00
SE481 seca 360 Wireless Printer Bracket £46.00

Revolutionary precise length measurements using seca high accuracy ultrasonic sensor technology.
EMR Ready

seca products with a red ‘wireless’ symbol can transmit their data via a special medical wireless protocol in a simple, secure and swift seca network. Using this system seca equipment can communicate with your PC, a seca 360° Wireless printer, or your Electronic Medical Record (EMR) system.

Wireless Scales & Measures

seca 376 EMR Ready Baby Scales with Extra Large Weighing Tray

- Network-capable with wireless technology
- Adjustable damping
- High-quality seca scale technology with fine 5-gram graduation
- Extra large and ergonomic tray for safe weighing
- Optional measuring rod seca 233 expands scale into a measuring station
- Capacity: 20 kg / medical class III
- Graduation: 5 g < 7.5 kg > 10 g
- Dimensions: 620 x 190 x 358 mm
- Weight: 3.7 kg
- Power supply: Battery / Mains adapter optional
- Fully integrates with EMIS, TPP SystmOne and Vision EMR systems, saving time and increasing patient safety

Price Deals

Accessories

- 233 Measuring Rod for 376 Baby Scale £62.00
- 456 Wireless 360° USB Adaptor £79.00

EMR Ready

seca 285 EMR Ready Measuring Station

- Capacity: 300 kg / medical class III
- Measuring range: 30-220 cm
- Graduation: 50 g < 150 kg > 100 g
- Graduation: 1 mm
- Functions: Weighing range switch-over / Auto-Hold / Automatic switch-off / Auto-BMI / Mother/child-function / Hold
- Class III
- Power supply: batteries (height measure) adaptor (scale)
- Fully integrates with EMIS, TPP SystmOne and Vision EMR systems, saving time and increasing patient safety
- 4 Year Warranty

The wireless measuring station seca 285 weighs and measures in a single step. Other benefits include the high capacity scale integrated in a stable glass platform, the heel positioner and the solid headpiece with the integrated seca Frankfurt Line – for precise head positioning. Not to mention the two displays. One is for a direct read-out of height from the headpiece and the other, a three-line multi-function touch display, shows weight, height and the automatically calculated BMI. On top of all that, the scale shows the slightest weight changes with its fine 50-gram graduation and transmits all measurements wirelessly.

376  seca Wireless Baby Scale With Shell Tray £419.00

285  seca Wireless Measuring Station £999.00

465  seca 360° Wireless Printer £309.00

456  Wireless 360° USB Adaptor £79.00

seca 761 Mechanical Personal Floor Scales

The precise design classic has a large clear and well-defined dial. With a large, low-level, non-slip platform and scratch resistant finish it is easy for the patient to step on and weigh.

- Capacity: 150 kg
- Graduation: 1 kg
- Dimensions: 303 x 118 x 470 mm
- Weight: 3.5 kg
- Grade IV
- Not suitable for hospital use
- 2 year warranty

761/4  seca Mechanical Personal Floor Scales  £90.99

seca 875 Electronic Personal Floor Scales

- Capacity: 200 kg
- Graduation: 200 g
- Dimensions (WxHxD): 321 x 60 x 356 mm
- Weight: 3.9 kg
- Power supply: batteries
- CE approval class: III
- Mobile measuring and weighing, Tap-on automatic switch-on, Automatic switch-off
- 4 year warranty

875  seca Electronic Personal Floor Scales  £149.00

seca 877 Mobile Flat Scales

- Capacity: 200 kg
- Graduation: 100 g < 150 kg > 200 g
- Dimensions (WxHxD): 321 x 60 x 356 mm
- Weight: 3.9 kg
- Power supply: batteries
- CE approval class: III
- Mobile measuring and weighing, Mother/Child function, Tap-on automatic switch-on, Automatic switch-off
- 4 year warranty

877  seca Mobile Flat Scales  £230.00

seca Electronic Flat Scales With Remote Display

Suitable for stationary or mobile use, thanks to its handle, compact size, low weight and a leveling base for set-up on all types of surfaces.

- Capacity: 200 kg / medical class III
- Graduation Weight: 100 g < 150 kg > 200 g
- Weight: 4.2 kg
- Power supply: Batteries / Optional Power Adaptor
- Dimensions: 321 x 60 x 356 mm
- Cable length: 2m
- Functions: Mobile measuring and weighing, TARE, HOLD, BMI, Automatic switch-off
- 4 year warranty
- Recommended by the Child Growth Foundation
- Recommended by the Child Growth Foundation
- Fully integrates with EMIS, TPP SystmOne and Vision EMR systems, saving time and increasing patient safety

899  seca Flat Scales with Remote Display  £250.00
seca 384 & 385 Baby/Toddler Scales

At home, in the surgery and around the world wherever life begins: reliable weight control is decisive for a healthy start in life. The seca 384 & 385 are all-rounders which have been developed on the basis of practical experience. They can be used not only as a baby scale but also as a floor scale for small children.

- Robust, lightweight & portable - ideal for community use.
- Capacity 20 kg for the SE384, 50 kg for the SE385
- Graduation SE384: 10 g < 20 kg > 20 g, SE385: 20g < 20kg > 50g
- Dimensions (WxHxD) 552 x 162 x 362 mm
- Weight 2.8 kg
- Mobile measuring and weighing, TARE, Weighing range switch-over, BMIF, HOLD, Automatic switch-off
- 4 year warranty
- Medical class III

384  seca Electronic Baby/Toddler Scale - 20kg Capacity  £230.00
385  seca Electronic Baby/Toddler Scale - 50kg Capacity  £249.00

seca 336i Electronic Baby Scales

Beyond its outstanding quality and convenient operation, the seca 336i impresses users with wireless transmission of weight and height into an Electronic Medical Record (EMR) system. When equipped with the digital measuring rod seca 234 and a USB barcode scanner, the scale eliminates transcription errors and guarantees an efficient measuring process.

- Capacity: 20 kg / medical class III
- Graduation: 5 g < 10 kg > 10 g
- Weight: 3.7 kg
- Power supply: Batteries / Optional Power Adaptor
- Dimensions: (WxHxD): 650 x 110 x 308 mm
- TARE, BMIF, HOLD, Auto-HOLD, auto weighing range switch-over, damping, automatic switch-off, SEND/PRINT, Confirm, Wi-Fi
- 4 year warranty

336i  seca Electronic Baby Scales - WiFi  £439.00
232N  Analogue Measuring Rod  £62.00
234  Digital Measuring Rod  £169.00
428  Carry Case  £39.00

seca 402 & 403 Baby Scale Trolleys

- Trolleys designed for use with baby scales
- 402 comes complete with an optional paper roll holder
- 403 comes with an integrated drawer and shelf
- Brake castors
- Door protection rollers
- Dimensions (WxHxD) 750 x 710 x 450mm / Weight 13kg.

SE402  Trolley for seca Baby Scales  £305.00
SE403  Trolley for seca Baby Scales  £405.00
seca 220 Telescopic Measuring Rod
- Fits seca 704, 799 scales
- Measuring range: 60 - 200 cm
- Graduation: 1 mm
- Dimensions: 55 x 784 x 32 mm
- Weight: 1kg
- Scale not included
- 2 year warranty

220/HM  seca Telescopic Measuring Rod £60.00

seca 222 Telescopic Height Measuring Rod
- Wall mounted
- Measuring range: 6 - 230 cm
- Graduation: 1 mm
- Dimensions: 120 x 1322 x 32 mm
- Weight: 1.3kg
- Heel stop included
- 2 year warranty

222/HM  seca Telescopic Height Measuring Rod £74.00

seca 213 Mobile Free Standing Height Measure
At only 2.4 kg, the seca 213 mobile height measure is especially suitable for use in the field but also ideal for doctors’ practices and paediatric hospitals. The measuring rod can be dismantled into several pieces and set up easily and quickly. The spacer keeps the rod straight and stable without any fittings. As the scale is printed along the side of the measuring rod, it is easy to read off the result while measuring, thus guaranteeing precise results - up to a height of 205 cm.
- Measuring range: 20 - 205 cm
- Graduation Length: 1 mm
- Weight: 2.4 kg
- Dimensions: 337 x 2160 x 590 mm / 337 x 177 x 624 mm when folded
- Functions: mobile measuring
- Includes carry case
- 2 year warranty

213  seca Mobile Height Measure £58.00

Approved and recommended by the Child Growth Foundation
Weighing & Measuring Stations

**Scales & Measures**

**seca 799 Digital Column Scale**
- **Capacity**: 200 kg / medical class III
- **Graduation**: 100g < 150kg > 200g
- **Dimensions**: 294 x 831 x 417 mm
- **Weight**: 6.3 kg
- **Transport castors, TARE, Weighing range switch-over, HOLD, BMI, Automatic switch-off**
- **4 year warranty**

Versatile, low-maintenance and site-independent with economic battery operation – the seca 799 is ideal for daily use in hospitals and doctors’ practices. With its transport castors, the column scale is also easy to move around.

Marsden M-545 Portable Floor Scale

The M-545 features all the basic weighing functions you need, as well as our new Body Surface Area (BSA) calculator, unique to Marsden and allowing you to get a true picture of a patient’s body health. BSA is most commonly used in the prescription of medication.

BMI, Hold and Tare functions also feature on the remote indicator, which is ideal for weight sensitive environments.

- Entry level floor scale
- Unique automatic BSA calculation function
- 100g graduation
- 250kg capacity
- Platform Dimensions: 310mm x 310mm x 50mm
- BMI calculation
- Hold/Tare function
- Micro USB port
- Robust design
- Long battery life - up to 180 hours
- Powered by 6 x AA batteries (adaptor also supplied)
- Integrated carry handle
- 4 year warranty
- Class III

Marsden M-430 Digital Floor Scale

- Hold/Tare function
- Calculates BMI
- Reversible weight display
- Capacity: 220kg
- Graduations: 200g
- Platform dimensions: 320 x 310 x 60mm
- Adaptor: Mains or replaceable AA batteries
- Weight: 3.4kg
- 4 Year Warranty
- Class III/MDD approved

Marsden M-530 Bariatric Scale

- Class III
- Full numeric keypad
- BMI calculation
- Hold/Tare function
- Capacity: 300/500kg
- High capacity suitable for bariatric weighing
- Extra wide, low profile weighing platform
- Adaptor: Mains or rechargeable battery
- Platform dimensions: 595mm x 400mm x 50mm
- 4 Year Warranty

Marsden Leicester Height Measure

- Portable, light and easy to carry
- Moulded plastic design
- Six pieces, simple to assemble
- Comes complete with robust corrugated plastic case
- Range: 0 - 2m / 1/8" - 66"/4'
- Dimensions of carry case: 650 x 365 x 125mm

Marsden Telescopic Height Measure

- Telescopic height measure made of anodised aluminium
- Can be fixed to the wall or mounted on column scales
- Incorporates fold down head piece for safety
- Patients height read at eye level
- Range: 600mm - 2m / 24" - 66"/4'
- Dimensions: 65mm x 936mm x 32mm
- Increment 1mm / 1/8"
**Spirometry**

**MIR SpiroLab Spirometer**
- Portable diagnostic spirometer
- Large, 7-inch colour touch screen display
- High resolution on-board thermal printer
- Can be used on mains electric or rechargeable internal battery
- Intuitive and easy to use on-board software
- Flow volume and volume time curves for easy on-screen inspection of manoeuvres
- Fully configurable with selectable indices and reference values
- LLN and Z-score
- Unique on-graph incentive to show current best values
- Test quality advisory messages and quality report
- Fully compliant to ATS/ERS 2005 guidelines
- Large storage memory
- Available with both disposable or reusable turbine flowmeter
- Elegant and robust carrying case
- PC spirometry software included
- GLI predicted values included

**Vitalograph Alpha Spirometer**
- Integral thermal printer
- Durable measurement technology without the need for expensive disposable sensors, turbines, spirettes or flow tubes
- Optimal hygiene via bacterial/viral filter (BVF™) barriers
- No user calibration required
- Simple and intuitive navigation
- Built-in interpretation of measurement results
- Mains or battery powered
- Includes all parameters for adult and paediatric patients within general healthcare and occupational health
- Includes Vitalograph Reports Software with the ability to create editable PDFs
- Features latest GLI spirometry predicted equations and Z-scores

**Vitalograph Alpha Touch Spirometer**
- Integrated thermal printer
- Durable measurement technology
- No need for expensive disposable sensors/turbines/spirettes/flow tubes
- Optimal hygiene via bacterial/viral filter (BVF™) barriers
- No user calibration required
- Touchscreen for modern and intuitive navigation
- Built-in interpretation of the measurement results
- Mains or battery powered
- Patient management database for storing more than 10,000 patients
- Choice of child friendly incentive animations
- Includes all parameters for adult and paediatric patients
- Features latest GLI spirometry predicted equations and Z-scores
- Vitalograph Reports Software with the ability to create editable PDFs
- Option to upgrade to Spirotrac® Software
- Also offers users the ability to add other diagnostic tests and physiological measurements

Welch Allyn SpiroPerfect™ Spirometer

See and compare accurate results from pulmonary function tests in seconds with the Welch Allyn PC-Based SpiroPerfect™ Spirometer. Clearly evaluate pulmonary obstruction or restriction, increase success rates of patients who are undergoing smoking cessation, show progress, and help pediatric patients comply with test procedures. This powerful and accurate Windows®-based software solution interfaces with EMR or patient management systems for onsite or offsite review of key data. Part of the CardioPerfect® Workstation suite.

- View real-time Flow/Volume Loop and Volume/Time graphs
- Instantly verify quality and variability of proper test performance
- Motivate children with Welch Allyn’s unique incentive graphic
- Reduce risk of cross contamination with single-use disposable transducers
- Select single- and multiple-flow calibration protocols
- Easily monitor, review, store and print using your existing computer with Welch Allyn CardioPerfect™ Workstation Software
- Choose from multiple predicted norms and report formats
- Compare previous tests with the trending tool
- Integrates with other Welch Allyn CardioPerfect devices
- Interface with Electronic Medical Records or patient management systems for onsite or offsite review of key data.

Intermedical Bedfont® NObreath® FeNO Monitor

The Bedfont® NObreath® is a simple to use, battery-powered handheld monitor that measures Fractional exhaled Nitric Oxide (FeNO) in the breath. The device has been designed for use in almost any clinical setting and can be used to test children as well as adults.

An adult patient blows into the NObreath® for 12 seconds giving an instant result for FeNO in ppb (parts per billion). The higher the FeNO reading the greater the inflammation in the airways.

- Simple screen prompts to be used by adults and children
- Touchscreen control with icon based menus
- Get accurate FeNO results instantly
- Ensures correct usage to obtain the most accurate FeNO reading
- Recommend by NICE. Tried and tested in clinical practice for diagnosis and monitoring of patients with Asthma
- Low cost of ownership meaning you won’t need to replace the device after a certain amount of tests
- Mouthpieces can be used more than once
- No computer required
- Includes NObreathFLO™ mouthpiece attachment, interpretation chart, 3 x AA batteries

1420500 NObreath FeNO Monitor £2661.00

For information on special pricing, please see page 198 or email savemoney@medisave.co.uk
Spirometry

ndd Easy-On PC Spirometer

- PC guided spirometry using ultrasonic technology - more accurate and reliable than conventional spirometers and is not affected by humidity or other variables
- Extremely high accuracy for low flows - unlike turbine based spirometers, there is no resistance
- Feature rich software for comprehensive spirometry testing - includes PRE/POST measurements, lung age, trending as well as selectable interpretation mode and auto QC
- Child incentive option - improve patient compliance when testing with children
- Maintenance free. Guaranteed for life - with no moving parts, the sensor does not require routine servicing nor any cleaning
- Fully integrates into EMIS and SystmOne

MIR SpiroBank Basic Spirometer

- PRE and POST Bronchodilator comparison.
- Spirometry test interpretation
- Embedded Temperature sensor for BTPS conversion
- Backlit, high-resolution display with on-screen results and curves preview for immediate data assessment
- Traffic light health indicator for immediate test interpretation
- Memory up to 10,000 Spirometry tests
- Rechargeable, long-life battery
- Can be used by clinicians as well as non-respiratory professionals
- Real Time test on PC via USB
- Winspairo PRO PC software online updates, and provides Real Time Flow/Volume and Volume/Time curves with PRE/POST Bronchodilator
- Paediatric Incentive for Spirometry
- Bronchodilator Reversibility, Bronchial Challenge with FEV1–response curve with protocols for both Methacholine and Mannitol
- Quanjer 2012–QLI Predicted values with LLN and Z-score

Micro 1 Handheld Spirometer

- Choice of 4 indices can be displayed
- Measures FEV1, FVC, FEV6, PEF, FEV1/FVC, FEV1/FEV6, F25-75
- ATS/ERS 2005 Quality prompts for each manoeuvre
- NLHEP configuration mode
- Current manoeuvre and Best manoeuvre available for viewing
- Quick examination option for quick patient testing
- Predicted values displayed as either % predicted or z score
- Post bronchodilator option with % change displayed
- Remembers the last patient tested to allow testing to continue
- Calibration check to verify device
- Last calibration check can be viewed
- Choice of 10 languages can be selected
- Rechargeable battery (charger supplied in carry case with unit)

**Vitalograph Pneumotrac Spirometer**

The Vitalograph Pneumotrac™ is the ideal PC-based spirometer for adult and paediatric use within general healthcare and occupational health settings. Pneumotrac is supplied complete with attractive hardware and software and connects directly to your laptop or PC. The precise and durable measurement technology requires no user calibration and reduces costs by eliminating the need for expensive disposable sensors, turbines, spirettes or flow tubes.

Optimal hygienic operation is assured by the use of Vitalograph bacterial/viral filter (BVf™) barriers.

Sophisticated and intuitive Vitalograph Spirotrac® Software provides the perfect environment for data collection, storage and trend analysis and includes the latest GLI predicted equations and Z-scores. Integrated HL7 & GDT communication interfaces provide the platform for test data exchange with all common electronic medical record (EMR) systems.

The Ideal PC-Based Spirometer for General Healthcare and Occupational Health

- Sophisticated PC-based spirometer
- Attractive, compact design
- Suitable for adults and paediatrics
- Durable measurement technology
- No need for expensive disposable sensors, turbines, spirettes or flow tubes
- No user calibration required
- Optimal hygienic operation via Vitalograph bacterial/viral filter (BVf™) barriers
- Features powerful Spirotrac® Software with real-time curves, interpretation and data trending
- Choice of child friendly incentive animations to help improve patient cooperation.
- Intuitive Spirotrac® Software future-proofs your service through various PC expansion options including interfacing with your network and electronic medical record (EMR) systems.
- Features latest GLI spirometry predicted equations and Z-scores

5 year warranty dependent on device being serviced annually

## Mini-Wright Standard Peak Flow Meter

Peak flow meters allow patients to monitor their asthma; Peak Expiratory Flow (PEF) is a measurement of how fast a patient can blow out. When a patient is well their PEF is higher, when the airways are narrow (as in asthma) PEF is lower.

- Scale ranges from 60-800 l/min
- Hand calibrated for **absolute accuracy**
- Easy to clean, lightweight and portable
- Suitable for both home and clinic use, also suitable for most adults and children.
- Available in 3 scales, the standard EU scale, the ATS scale used in America and the old Wright McKerrow scale used in clinical trials
- Supplied complete with instructions for use, patient self-monitoring chart and sterilisable mouthpiece

## Mini-Wright Low Range Peak Flow Meter

- Measures PEF from 30-400 l/min
- Suitable for children and patients with severe respiratory conditions
- **Easy to read** scales, compact and lightweight
- Calibrated by hand to ensure **100% accuracy**
- AFS technology ensures readings comparable with those from Standard Range Mini-Wright
- Supplied complete with instructions for use, patient self-monitoring chart and sterilisable paediatric mouthpiece

## eMini-Wright Peak Flow Meter

Peak flow monitoring is a recognized tool in asthma management. Keeping accurate manual peak flow meter records is sometimes difficult, the eMini-Wright brings peak flow monitoring up-to-date.

The eMini-Wright is a small, discreet electronic peak flow meter that accurately measures and stores peak flow data. This is the non-downloadable version.

The eMini-Wright reports if a peak flow effort is not part of a reproducible group of readings.

- **Highly accurate** peak flow measurements: conforms to international standards
- Stores 240 readings
- **Easy to clean** by simple wiping
- On-screen zoning system
- On-screen reporting of poor effort and non-reproducible results

## Airzone Flow Meter

This pocket sized peak flow meter is suitable for both adults and children and features a special patented tamper-proof zoning system that allows safe and accurate self-management.

Also calibrated by hand to ensure consistency, the AiZone offers accuracy, reliability, portability all at an affordable price.

This is the EU scale version which measures peak expiratory flow between 60 – 720 L/min.

- Suitable for adults and children
- Single patient use
- Optional zoning markers
- Individually calibrated
- Conforms to NAEP Guidelines
- **Lightweight and compact**

Trainhaler pMDI Training System

Trainhaler CR is a simple pMDI training system providing flow and coordination coaching. It is an environmentally friendly placebo-like pMDI training device which with the Flo-Tone CR attached is an essential tool for healthcare professionals to teach inhaler technique. The Trainhaler CR is suitable for multi-patient use by changing the Flo-Tone CR for each individual patient.

- Contains no medication
- For multi-patient use
- Flow rate guidance with Flo-Tone CR attachment
- Actuation indicator for easy co-ordination when Flo-Tone CR is attached
- Low-cost inhaler technique trainer
- Teaches correct flow rate
- Simple non-electronic training device, can be used anywhere

A2A Spacer Valved Holding Chamber

A2A Spacer is a pocket-sized, valved holding chamber (VHC); collapsible for improved portability. It is made from anti-microbial, low-static, transparent plastic for improved hygiene; for single patient use. When open the A2A has a volume of 210ml, and when closed it’s highly portable.

Features:
- Collapsible, pocket-sized
- Easy to clean
- Inhibits microbial growth
- Accepts most pMDIs available
- Suitable for both children and adults

COPD & Smoke Check

Spirometry

Vitalograph copd-6 COPD Screener

- Identifies those at risk of COPD at the pre-symptomatic stage
- Screens out those whose FEV1 is normal, **without the risk of false negatives**
- Displays the gold COPD classification (Stage I - IV) to help recognise the need for changes in the patients management plan
- Displays FEV1, FEV6, ratio and % predicted, obstructive index, COPD classification and lung age
- Detachable flowhead makes cleaning simple
- Built-in quality of blow indicator
- Designed for multi-subject use

40200 copd-6 COPD Screener £80.99

MicroMedical Pulmolife COPD Screener

This **small, innovative device** measures FEV1, the measurement of choice in COPD screening. The unit will display a patient’s result together with the FEV1 as a percentage of their predicted value. These results are used to calculate a ‘Lung Age’. The associated ‘Lung Age’ graphical display may help the patient realise the physical damage caused by smoking, encouraging attendance for smoking cessation advice and full spirometry assessment, **leading to early diagnosis and appropriate management of COPD**.

- Measures FEV1 — the measurement of choice in COPD screening
- Gives FEV1 result as a percentage of predicted values
- ‘Lung Age’ interpretation (Morris and Temple)
- Used as a motivational tool for smoking cessation

PL10 Pulmolife COPD Screener £124.09

BOLD LOOKS

NEW COMBOS
Stethoscopes

3M™ Littmann® Classic III Stethoscope

- **NEW**: double-sided, dual diaphragm chestpiece for **both adult and paediatric assessment**.
- **NEW**: The paediatric side is also **easily transformed into a traditional open bell** by replacing the single-piece diaphragm with the supplied non-chill rim.
- **NEW**: chestpiece is precision-machined into an **aesthetically pleasing**, less angular shape.
- **NEW**: single-piece diaphragm instead of separate diaphragm/rim making it **easier to attach and easier to clean** due to the smooth unbroken surface.
- **NEW**: The stem features an open side indicator to easily identify which diaphragm is in operation.
- **NEW**: next-generation tubing gives **even longer tube life** with improved resistance to skin oils, alcohol and staining.
- **3M’s ‘Tunable Technology’** lets you **easily switch from low to high frequency sounds** by switching from light to firm pressure on both the adult and paediatric sides of the chestpiece.
- **High acoustic sensitivity** when performing general physical assessment.
- **Laser engraving** of text and symbols to personalise your scope and avoid theft/loss.
- Larger ear tubes on the anatomically designed headset comfortably positioned for **better sound transfer**. Easy adjustment by simply squeezing or pulling apart the eartubes.
- **Comfortable** Snap-Tight soft seal eartips create an excellent acoustic seal to reduce ambient noise.
- **No natural rubber latex or phthalate plasticisers** are used in the tubing or any other component—to help **protect health and the environment**.
- **Complement your personal style** with Littmann’s large range of chestpiece finishes and tubing colours.
- **Used as a diagnostic aid** as part of the **physical assessment** of a patient.
- **5 year warranty** includes free repair on any manufacturing or material defects.
- **Littmann performance rating** of 7 out of 10.

3M™ Littmann® Cardiology IV Stethoscope

- **Single-Piece Tuneable Diaphragms** - let you hear high and low frequency sounds on both the adult and paediatric sides of the chestpiece.
- **Next Generation Tubing** - the tubing is not made with natural rubber latex or phthalate plasticisers. It lasts longer with improved resistance to skin oils and alcohol, and is less likely to pick up stains.
- **Diagnose with Confidence** - the Cardiology IV™ has been engineered to make sure you can hear the sounds that you can barely perceive - often the most important.
- **Better Audibility** - of high-frequency sounds helps you learn more about your patient’s condition.
- **7 Year Warranty** - extra-long warranty period for your piece of mind.

FOR INFORMATION ON SPECIAL PRICING, PLEASE SEE PAGE 198 OR EMAIL SAVEMONEY@MEDISAVE.CO.UK
**3M™ Littmann® Lightweight II SE Stethoscope**

- **Navigate easily** around blood pressure cuffs and critical body contours with the unique shape of the chestpiece.
- 3M’s ‘Tunable Technology’ lets you **easily switch from low to high frequency sounds** by switching from light to firm pressure.
- Double-sided chestpiece gives you the option of a **tunable diaphragm** on the front or a **traditional bell** on the reverse.
- **Laser engraving** of text and symbols to personalise your scope and avoid theft/loss.
- Anatomically designed headset comfortably positioned for **optimal sound transmission**.
- **Comfortable** Snap-Tight soft seal eartips create an excellent acoustic seal to reduce ambient noise.
- Used as a diagnostic aid as part of the **physical assessment** of a patient.
- **2 year warranty** includes free repair on any manufacturing or material defects.
- Littmann performance rating of **6 out of 10**.

Lightweight II SE Stethoscope £37.19

**3M™ Littmann® Spare Part Kits**

3M™ Littmann® Stethoscopes offers the **high quality** that medical professionals expect, and each replacement part and accessory meets the same demanding standards. **Conveniently packaged** in kits that correspond to our stethoscope models, Littmann stethoscope replacement parts and accessories **make repairs simple**. Each item is carefully manufactured to **work seamlessly** with existing equipment.

Thermometers

WelchAllyn® Braun Thermoscan® Pro 6000 Thermometer

For medical professionals that demand the most accurate, clinically tested, non-invasive temperature measurements.

- Unique PerfecTemp technology helps ensure accuracy even with variability in probe placement in the ear
- Built-in safeguards virtually eliminate risk of cross-contamination
- Easily switch between Celsius and Fahrenheit
- Large easy-to-read LCD with pulse timer
- Takes approximately 1,000 readings on two AA batteries

Why professionals choose the Pro6000:

- Hospital-grade thermometer with tested calibration between 20°C - 42°C
- 3 year warranty (excludes calibration)
- 60 second pulse timer assists with manual measurement of pulse rate & respiration
- Highly resistant to cleaning chemicals - including Clinell
- Several security features help prevent theft – including an optional security tether
- Durable enough for demanding medical environments
- Convenient probe cover storage built into the cradle
- Rechargeable battery and charging options available

PerfecTemp technology

Help overcome the potential for low readings compared to core, by adjusting for factors that impact measurement accuracy such as shallow probe placement.

IRT6020 Thermoscan® 5 Thermometer

When it comes to accurately taking a child’s temperature, doctors trust the precise Braun ThermoScan® ear thermometer above all others, thanks to its patented, pre-warmed soft tip. The tip on other thermometers can cool the area where the reading is taken, which can lead to inaccurate readings. The tip on the ThermoScan® is warmed before use to prevent this and ensure professional accuracy. In addition, the ExacTemp® guidance system confirms the correct position and accurate reading with a light and a beep. You will also appreciate disposable Braun certified lens filters that help prevent the spread of germs between uses. And now with the new large screen and ergonomic design, Braun ThermoScan® is even simpler to use.

- No.1 brand used and recommended by doctors
- Patented pre-warmed tip ensures accuracy
- ExacTemp® guidance system function: light & beep alert for accurate positioning
- Fast, gentle and easy to use
- Last reading recall to track temperature
- Hygienic disposable lens filters. BPA and Latex free

Thermometers

Digital Tympanic Ear Thermometer

The compact and ergonomic digital ear thermometer features a measurement response time of 1 second and has the capacity to hold 10 memory records. The auto shut off helps conserve battery life and will offer approximately 4,000 uses between batteries.

- Compact
- Ergonomic
- Digital
- Measurement response time of 1 second
- Capacity to hold 10 memory records
- Auto shut off
- Supplied with 2 x AAA batteries

D60.200 Digital Tympanic Ear Thermometer £17.39

Radiant Tympanic Ear Thermometer

- Easy one touch operation
- 1 second temperature reading
- 9 memories for temperature comparison and evaluation
- Scale selection Centigrade or Fahrenheit
- Fever alarm
- High accuracy
- High reliability
- Ergonomic design for a comfortable grip and steady reading
- Plus 20 disposable hygienic probe covers preventing cross infections
- Battery lasts for 6000 readings (normally more than 5 years)
- CE approved

TH889J Radiant Tympanic Ear Thermometer £25.29

Omron Flex Temp Start Thermometer

- Digital Fever Thermometer for Oral, Axillary and Rectal use
- Fast 10 seconds measurement (Rectal: approx. 10 seconds, Oral: approx. 20 seconds, Armpit: approx. 25 seconds)
- Flexible tip for highest comfort during measurement, especially for children/babies
- Protective case to highlight the value of the device
- Beeper
- Memory (last measurement value)
- Celsius/Fahrenheit indication
- Exchangeable battery
- 3-digit display (1 decimal place)
- Unique and attractive design
- Water-resistant
- 15 language Instruction Manual

MC-343F-E Omron Flex Temp Smart Thermometer £5.89

9512254-4 Probe Covers x 100 £2.49
3M Disposable Tempadot Thermometer x 100

- Single-use thermometer reduces risk of patient infection from drug-resistant organisms.
- Provides consistently accurate temperature readings for reliable patient assessment.
- Easy to read and simple to understand.
- Versatile thermometer which can be used to take oral or axillary temperatures, provides a fast reading in 60 seconds for oral temperature, and allows you to check other patient vital signs simultaneously with temperature taking.
- Economical thermometers are bulk packaged for lower cost per unit. Disposable to eliminate time and labor spent on disinfection, recalibration, recharging and repair of electronic and tympanic units, and eliminate expense and risk associated with toxic mercury cleanup and disposal.
- No risk of toxic mercury exposure makes this thermometer a nontoxic and safe choice for patients of all ages.

**TP5532** Disposable Tempadot Thermometer x 100  **£14.89**

Omron Gentle Temp 521 Ear Thermometer

With a user-friendly ergonomic design for extra comfort, the Gentle Temp 521 ear thermometer is especially suitable for use with youngsters. In addition to the backlit display, it uses infrared technology to provide results in just one second so that highly accurate measurements can be taken with the minimum of fuss. Giving users extra flexibility, the ear thermometer offers ‘3 in 1’ temperature measurement. It not only measures ear temperature, but surface temperatures, from a milk bottle or food dispenser as well as giving readings for the room temperature.

- 3 in 1 measurement (ear, surface, room)
- 1 Second measurement
- Stores 25 readings
- Backlight function
- 21 probe covers included
- Readings in Celsius / Fahrenheit
- Large display
- Automatic shut off

**MC-521-E** Gentle Temp 521 Ear Thermometer  **£26.79**

OMG99 Probe Covers x 20  **£4.69**

Omron GentleTemp 720 Thermometer

- Measures forehead body temperature with no contact
- Measures surface temperatures, from a milk bottle or food dispenser for example, as well as giving readings for room temperature
- With memory for 25 readings, it’s possible to track temperature changes over a period of time and monitor trends
- Thanks to the backlit screen, readings can be seen clearly at nighttime, making it especially handy when measuring your baby’s temperature at night
- 3 in 1 measurement (forehead, surface, room temperature measurement)
- Fast 1 second measurement

**MC-720-E** Omron GentleTemp 720 Thermometer  **£35.89**

**Glamox Luxo LHH LED G2 Dimmable Examination Light**

It is the highly flexible self-balancing arm in conjunction with excellent light output that has given our LHH diagnostic luminaires their vast popularity among the medical profession. The frictionless horizontal and vertical movement and the ease of use make the LHH the most flexible examination luminaire on the market — and the best in its class.

- Painted with SteriTouch® (antimicrobial powder coating)
- IEC/EN 60601-1-1 and IEC/EN 60601-1-2 approved
- LEDs have an incredible life span of 50,000 hours or more
- 4000K - CRI 95
- LED module has an excellent light output of 35,000 lux at 1 metre
- LHH is made of powder-coated metal, such as aluminium and steel. The light source is covered with tempered glass.
- Parallel, three-pivot arm. Arm lengths are 105 cm
- On/Off and dim
- CCT version available on request
- Mounting options - Wall, Trolley Floor Stand and Ceiling (Ceiling Void Mount available if required)

| LHHG2 | Luxo LHH LED G2 Examination Light - CCT | £588.99 |

**Glamox Luxo Circus LED Medical Illuminated Dimmable Magnifier**

Circus LED is well suited for demanding work in GP Surgeries, Medical Centres and Beauty Salons. Circus LED has a large lens, aluminium head and a highly flexible self-balancing arm and shade neck. The large lens permits comfortable viewing with both eyes.

- Light source : LED: 750 lm out (4000K)
- Colour rendering index (CRI) is 90
- Dimmable: 10–100%
- Steel arm with aluminium head. Shade neck cover in rubber
- Mounting: Standard with table clamp (AH clamp). Other options - Trolley Floor Stand
- Optics : Standard with 3,5D lens. Lens diameter is 165 mm
- Additional suction lenses can be attached to the magnifier. Available on request
- Parallel, three-pivot arm. Arm length is 100 cm
- Medical approvals and certificates - IEC/EN 60601-1, IEC/EN 60601-1-2
- Standard version with 3.5 or 5 diopter request

| CIL026778 | Circus Medical 3.5d White | £252.09 |

**Brandon Medical Mobile Examination Lamp**

- High Intensity Light
- Designed for medical examinations with integral dichroic heat filtering.
- Cool Wall Construction
- Double wall lamp head construction is designed to minimize heat emissions to ensure both doctor and patient comfort.
- Easy Positioning
- Designed to easily direct light where it is most needed. The lamp head rotates through 360° and is fitted to a multiflex arm. The light remains fixed where you place it.
- Daylight Filter
- The optional daylight filter corrects the essentially artificial light to that of ‘cool daylight’ as used in operating lamps.
- CE marked to certify compliance with European and British standards. ISO9001 quality systems are used throughout manufacture.
- Lux: 18,000 at 0.5 metre

| MT6008M | Mobile Examination Lamp | £459.79 |

X210L  Wall Mounted X210  £454.69
Heine EL10 LED Examination Light

The EL 10 LED examination light distinguishes itself through an absolutely homogeneous field of light. The light intensity can be regulated continuously between 6,500 and 45,000 Lux. The spot size can be adjusted in a diameter between 8.5 and 14 cm to suit any situation. Both at a working distance of 30 cm. Controls with ergonomic grip allow for intuitive and fast adjustment of brightness and spot size. The compact illumination head allows an almost coaxial illumination, particularly in difficult application situations.

- Perfect illumination in every examination situation
- **LED in HQ.** 10 Watt high performance LED with authentic colour rendering (Colour temperature typ. 3,000 Kelvin, CRI > 85)
- 3 different mounting options. Wall mounting, clamp for table-top mounting or on a wheeled stand
- Solid construction. Reliable operation safety and illumination power for many years
- Hygiene. Easy and efficient cleaning and disinfection
- Coiled goose neck. Easy and intuitive adjustment
- An electrical control system monitors all functions and guarantees safety

Heine EL3 LED Examination Light

- **Simply bright.** The EL3 LED provides bright ( > 42,000 lux / > 350 lumen), shadow-free illumination precisely at the point of interest. At a working distance of 30 cm.
- **LED in HQ:** The new standard in LED illumination defining optimal light intensity, homogeneity and colour rendering for the most accurate diagnosis. Red is red, blue is blue.
- A white light with a **colour temperature of 5,000 K,** Colour Rendering Index (CRI) > 90, special index for red colours (R9) > 90 on a maximum scale of 100.
- **Shadow-free illumination.** The compact illumination head (Ø approx. 60 mm) allows convenient, precise positioning, particularly in difficult application situations.
- **Optimal positioning** eliminates unwanted shadows in the illuminated field.
- **Maintenance-free** and easy to clean.
- Cool-Touch closed head design makes disinfection safe and easy.
- **Optimal positioning.** The light weight head and stable goose neck allow easy and intuitive adjustment and keep the light exactly in the required position.
- **LED Thermal Management.** LED illumination systems require thermal management to ensure long-term performance and product stability. Carefully selected and applied heat-diffusing materials guarantee consistent quality and performance throughout the LED's lifetime rating of up to 30,000 hours.

**WelchAllyn GS600 LED Minor Procedure Light**

- Featuring three LEDs and a wider head, the GS600 is designed specifically for demanding viewing conditions. And since it provides true brilliant colour rendition and the GS600 is ideal for minor procedures and examination in any healthcare environment.

- Three white LEDs for greater intensity
- Touchless power controls and adjustable light output
- A disposable sheath is available to help reduce the risk of infection due to cross-contamination
- The rugged, ergonomic design allows for improved performance and long-lasting durability
- Low cost of ownership due to the elimination of bulb replacement and lower energy consumption
- Easy to assemble and clean
- 5-year limited warranty to include the LED light source and power supply only

The New and improved Control Plus range

This year Lec Medical are introducing a new Control Plus range - simpler to use with a variety of user friendly features.

The new range includes the following sizes:

New 47 litre
444410570 (solid) / 444410572 (glass)

158 litre
444410526 (solid) / 444410527 (glass)

273 litre
444410651 (solid) / 444410652 (glass)

353 litre
444410666 (solid) / 444410665 (glass)

Dual Probe Measurement System

- One probe measuring air and one placed in glycol replicating the temperature of the vaccine vial
- Gives true vaccine temperature readings, rather than just air temperature of the unit
- Alarms will operate from the ‘Air’ probe giving the end user precious time to react so less chance of wasted vaccines

The NEW and Improved Controller

- Updated system for improved user experience
- Read, Record, Reset simply with the touch of one button
- No stress of accidentally resetting
- Clearer digital display
The New and Improved Control Plus Range

This year Lec Medical are introducing a new Control Plus range - simpler to use with a variety of user-friendly features.

The new range includes the following sizes:

- **47 litre** 444410570 (solid) / 444410572 (glass)
- **158 litre** 444410526 (solid) / 444410527 (glass)

Dometic WAECO Tropicool TC 07 Cooler

- Storage volume: approx. 7 litres
- Convenient 12 V DC and 230 V AC cooler
- State of the art thermoelectric cooling performance
- Intelligent power-save circuit
- Individually adjustable temperature
- Dynamic interior ventilation
- Wear-resistant fan
- Digital display
- Cooling up to 25°C below ambient temperature, heating up to +65°C
- Powered portable cooling: Mains & 12V
- Dimensions (W x H x D): 333 x 278 x 190mm

9105303473  7L Thermoelectric Portable Cooler £161.09

Dometic WAECO Tropicool TCX 14 Cooler

- Storage volume: approx. 14 litres
- Convenient 12 V DC and 230 V AC cooler
- State of the art thermoelectric cooling performance
- 7-stage temperature regulation for cooling and heating
- Energy efficiency rating of A++
- Intelligent power-save circuit
- Dynamic interior ventilation
- Wear-resistant fan
- Digital display
- Memory function Cooling up to 30°C below ambient temperature, heating up to +65°C
- Powered portable cooling: Mains & 12V
- Dimensions (W x H x D): 450 x 328 x 303mm

9105330317  14L Thermoelectric Portable Cooler £161.09

Dometic CFX 35W 32L Coolfreeze Portable Compressor Cooler

- Storage volume: 32L
- Excellent cooling performance even at extremely high outside temperatures
- Suitable for deep-freezing down to –22 °C
- Very efficient and quiet operation. Suitable for solar operation
- Heavy-duty design with reinforced corners, stainless steel hinges and robust lid coating
- CFX special electronics with digital temperature display
- Temperature control via WiFi app
- Powered portable cooling: Mains & 12V
- Dimensions (W x H x D): 398 x 411 x 629mm

9000000471  32L Coolfreeze Portable Cooler £543.89

Labcold Portable Vaccine Carrier - 12L

- Powered by both mains and vehicular 12 volt power sources
- Supplied with mains and in car power cables
- Thermoelectric, solid state cooling system means no dangerous liquids can escape or moving parts damaged
- Can be used in conjunction with Labcold data loggers for extra temperature security
- Safe gas free peltier refrigeration
- Lightweight and easily transportable
- Easy to read digital temperature display
- Tough plastic exterior
- Capacity (Litres) 12
- Temp range:+2°C to +8°C
- H x W x D: 290 x 420 x 290mm
- Weight 6.2kg

RPDF0012E Labcold Portable Vaccine Carrier - 12L £424.29

Dometic WCI 33 Passive Coolbox 33L

- Keeps ice for several days
- Made from impact-resistant and seamless plastic, is designed for the toughest conditions

Swann-Morton® Clicksmart BladeFLASK

- QFYUKSM Clicksmart BladeFLASK £19.49

This world-first single-handed scalpel blade remover prevents the dangerous injuries commonly caused by removing blades with fingers, forceps or re-sheathing.

- Puncture proof sharps container which when it is full, can be disposed of safely without any further exposure to sharps contact
- Has an auto shut-off to prevent over-filling
- Built in counter with shut-off mechanism that activates automatically after 100 blades have been removed
- Improves staff safety, by ensuring the used scalpel blade is removed with a safe single-handed technique and then safely contained until final disposal

Bracket sold separately
Pasante® Pregnancy Tests

Pasante’s Clear Sign ‘midstream’ and ‘dip and read’ pregnancy tests are accurate during the early stages of pregnancy and easy to read, making them perfectly suitable for home use.

Pelican Disposable Coil Remover

The Pelican Coil remover has been improved to demonstrate greater instrument strength and grip. The improved design has reduced the size of the tip, enhancing visibility during the procedure. The tip of the device has a “V” design where it is essential the coil threads are located for a smooth retrieval.

- Enhanced secure locking mechanism
- Angled tip ensuring greater accuracy in locating coil threads
- Carefully designed tooth combination to ensure accuracy of removal
- Designed for ease of use within the PELIspec without reducing visibility
- Unique product identification number for traceability
- Manufactured in the UK

Pelican Disposable Vulsellum

The Pelican Vulsellum is characterised by the 3:4 tooth combination and designed to spread the grip on the cervix evenly. The Pelican Vulsellum has been improved to demonstrate greater instrument strength and grip.

- Enhanced secure locking mechanism
- Specifically designed tooth combination to minimise discomfort and reduce trauma
- Curved tips to allow greater visibility
- Reflects the metal equivalent for ease of use
- Unique product identification number for traceability
- Latex free
- Manufactured in the UK

Aurelia® Amazing™ P/F Nitrile Gloves

The unique Nitrile formulation of Amazing® is thin and flexible enough to deliver higher-tactile sensitivity, yet strong and safe enough to perform under pressure.

- Material: Nitrile (100% Latex-Free)
- Type: Non Sterile
- Glove Design & Feature: Ambidextrous and Finger Textured
- Cuff: Beaded
- Usage: For Single Use Only
- Color: Transblue
- Thickness: 2.0 mil

Nytraguard® Bluple® Nitrile P/F Gloves

- Latex free
- Ambidextrous and finger textured
- Beaded cuff
- Designed to help with infection prevention, ideal for a clinical setting
- Can be used for a huge variety of general tasks such as food handling
- Thinner than many on the market, yet still strong and durable

Aurelia® Bold® P/F Nitrile Gloves

- Latex Free
- Non-Sterile
- Ambidextrous and finger textured
- Tested and conforming to highest international standards
- Beaded cuff
- Thickness: 5.0 mil

Sempercare® Skin² P/F Nitrile Gloves

- No natural latex proteins
- Greater perforation resistance (with same wall thickness as latex glove)
- More safety in critical applications
- Conforms to EN455, EN420, EN374-2, EN374-3

Polythene Disposable Gloves

- Manufactured and inspected in accordance with European PPE Directive 89/686/EEC
- Manufactured from polythene
- Food Safe
- Packed in bags

**Nitrile Gloves & Aprons**

**Gloves & Aprons**

**Hand Safe® Nitrile P/F Gloves**
- Visually inspected for holes and minor defects
- Random samples are filled with 1000ml of water and examined for leaks
- Tested to AQL 1.5
- Manufactured from nitrile butadiene
- Mildly chlorinated and thoroughly washed
- Typical force at break: 9 Newtons
- Typical elongation: 600%
- Typical tensile strength: 19 Mpa

**Bodyguards® Vitrile Green P/F Gloves**
- Comfort - Nitrile/vinyl combination makes the glove comfortable and flexible to wear
- Fit - A better fit and therefore more dextrous than vinyl
- Provides good barrier protection
- Rolled Cuff - Additional strength and prevention of liquid roll back
- Freedom From Holes - AQL 1.5
- Powder-free for your comfort

**Glove Dispensers**

**Disposable Polythene Aprons**
- Aprons on a roll are manufactured from the same material as the dispenser pack version but are supplied on rolls for maximum convenience and minimised space.
- Each roll is individually wrapped for product protection and ease of insertion into the Premier wall mountable dispenser.
- Material is resistant to fluid and bacteria penetration
- Length: 69 x 117cm
- Packed: 200 aprons per roll or 100 aprons per box

### Prolene

PROLENE Suture (clear or pigmented) is a nonabsorbable, sterile surgical suture composed of an isotactic crystalline stereoisomer of polypropylene, a synthetic linear polyolefin. The suture is pigmented blue to enhance visibility. PROLENE Polypropylene Suture is indicated for use in general soft tissue approximation and/or ligation, including use in cardiovascular, ophthalmic and neurological procedures.

### Sutures

**Ethilon**

A **nonabsorbable, sterile surgical monofilament suture** composed of the long-chain aliphatic polymers Nylon 6 and Nylon 6,6. ETHILON sutures are dyed black or green to enhance visibility in tissue. ETHILON Sutures meets all requirements established by United States Pharmacopeia (USP) for nonabsorbable surgical suture. ETHILON sutures are indicated for use in general soft tissue approximating and/or ligation, including use in cardiovascular, ophthalmic procedures, and neurological procedures.

Medisave 10 Parameter Urinalysis
Reagent Urine Test Strips x 100

Medisave ultra value ten parameter urinalysis reagent strips x 100. Simple dip-and-read for Vitro Diagnostic test strip for use in urine. The test parameters are easily compared using the results chart on the side of the container. Readings are ready for comparison in just 60 seconds (Leukocytes between 60-90 seconds). Supplied in a quantity of 100, encased within a durable desiccant equipped case.

Tests for:
- Leukocytes
- Nitrite
- Urobilinogen
- Protein
- pH
- Blood
- Specific Gravity
- Ketone (Acetoacetic Acid)
- Bilirubin
- Glucose

RS10/100 Medisave Urinalysis Test Strips x 100 £9.29

Roche Combust® Urine Test Strips

- Even minute pathological changes in the urine cause distinct color changes in the test fields. This makes urine testing with Combust-Test® strips the first step on the way to a reliable diagnosis in both clinics and practices.
- Thanks to the low detection limit of Combust-Test® strips even slight pathological changes in the urine are made visible.
- Protected by iodate against ascorbic acid interference with both glucose and haemoglobin determinations eliminating virtually false-negative results and the need to recollect and retest specimens.
- Can be stored at room temperature up to 2 years. The integrated desiccant in the stopper cap minimizes costly reagent waste.
- Allow to simultaneously read all reagent pads between 1 and 2 minutes while the long strip handle keeps fingers clear of the specimen.

11896814250 Combust 3 Test Strip s x 50 £6.49
11896822252 Combust 4N Test Strips x 50 £8.79
11008552255 Combust 7 Test Strips x 100 £16.49
04510038191 Combust 9 Test Strips x 50 £12.69
04510046040 Combust 9 Test Strips x 100 £21.19
04510062171 Combust 10 Test Strips x 100 £24.29
Siemens Multistix GP Reagent Strips
- Siemens Multistix GP is a urinary test that tests for levels of Glucose, Protein, PH, Specific Gravity, Blood, Ketones, Nitrite and Leucocytes within urine.
- Suitable for use with Siemens Clinitek Status and the New Clinitek Status+ Analysers for automatic analysis of results.
- High quality reagent strips

Siemens Multistix 8 & 10 SG Urinalysis Strips
- The Multistix® SG reagent strip is the reliable frontline test for detection of a broad range of conditions, from detecting urinary tract infections (UTI) to diabetes and kidney disorders. Accurately gain a broader clinical insight into a patient’s health.
- Reliable testing for UTI, diabetes, and kidney disorders
- 8/10 tests for important markers on a single strip
- Combined leukocyte/nitrite results for better prediction of UTI with fewer false negatives

Siemens Uristix Reagent Strips
- Reagent strips of urinalysis can be used to test urine for glucose, ketone, blood, specific gravity, blood, pH, protein, nitrite and leucocytes.
- Suitable for use with Siemens Clinitek Status and the New Clinitek Status+ Analysers for automatic analysis of results.

Medi-Test Combi Urine Strips
- The Medi-Test glucose test is the most sensitive test on the market allowing better control of glucose levels in diabetics. The Medi-Test glucose test is sensitive down to 1.1mmol/l
- The tests can be read between 30 and 60 seconds (except leukocyte which has to be read at 120 sec).

Sterilin Sample Bottles
- Manufactured from ultra clear polypropylene.
- Suitable for centrifugation at 9500 x g.
- CE marked in accordance with the European Directive 93/42/EC.
- Excellent temperature and chemical resistance.
- Multi-seal cap ‘QuickStart’ for improved handling and unrivaled leak-free performance.
- Leak tested in accordance with BS EN14254
Sunflower Waste Bins

- Hands free operation, foot pedal must be used.
- Non-Clinical versions supplied with multi-usage foot pedal labels.
- Corrosion resistant bodies with stainless steel foot pedal and mechanism.
- Sealed base prevents leakages and facilitates easy cleaning.
- Integrated wall mounting bracket as standard.
- Three sizes, 20, 50 and 70 litre capacity.
- All versions fire tested to HTM05-03 fire safety in the NHS part A.
- Elasticated cord hold bags firmly in place, while the nylon loop makes changing bags easier.

Doherty Kendal Waste Bins

- Pull out handle to allow easy movement.
- Hands-free.
- Silent closing.
- Large pedal - each bin is fitted with a specially designed wide pedal, which allows the sack holder to be approached from both the front and sides.
- Rounded corners - wherever possible sharp edges have been removed and replaced with rounded corners.
- Rubber feet - these are fitted to stop the bin marking the floor and leaving unsightly rust marks.
- Six month warranty.
- All the bins are fully fire retardant to HTM83.
- Dimensions - 20ltr: Height 57.5cm Width: 22cm Depth: 35cm.
- 50ltr: Height: 64cm Width: 41cm Depth: 44cm.
- 70ltr: Height: 81cm Width: 41cm Depth: 44cm.

If you are an NHS establishment, GP Surgery, Private Hospital Group, or similar, then ordering through Medisave could not be easier. We will happily open an immediate 30 day account on receipt of an official purchase order, or via our downloadable order form. We accept orders via e-mail to accounts@medisave.co.uk, via fax on freefax 0800 804 6448 and if you are a GP surgery, via telephone on freephone 0800 804 6447.

Please visit www.medisave.co.uk/nhs-customers for more details.

Utilise our new ‘Spending History’ dashboard for a clear understanding of your purchasing history and budgetary trends.

Break down your spend for any given period by category to see where the bulk of your budget is going.

Graph historical spend over time to help with future budget plans.

wadams@medisave.co.uk
savemoney@medisave.co.uk

Medisave now has representatives UK wide so if you would like to make an appointment, please contact us.

*UK Mainland Only
Terms and Conditions

Below are our Terms and Conditions of Sale and it is important that you read and understand them. Should you have any queries, please contact the Medisave Team on 0800 804 6447.

Conditions

In these Conditions of Sale, all references to “the Seller” are to Medisave UK Ltd and all references to “the Buyer” are to the person, firm or company by whom the order is given. All references to “the Goods” are to any items supplied by the Seller to the Buyer.

Customers Authority

Customers entering into transactions with Medisave UK Ltd expressly warrant that they are authorised to accept and are accepting these Terms and Conditions not only for themselves but also as agents for and on behalf of all other persons who are, or may become, interested in the company’s goods whether in whole or part.

Specifications

All goods are supplied to the seller will be set out in the current brochure. The Seller reserves the right to alter any product specification and withdraw any product without any prior notification. Production specifications can be confirmed by telephone.

All images of products are purely for illustration only, and do not form part of the description of the product. Medisave UK LTD cannot accept responsibility for any difference between the images in the catalogue and the actual appearance of the product.

Pricing

All prices are subject to alteration without prior notice. Prices are listed in the appearance of the product.

Promotional pricing including and not exclusively, ‘Pick n Mix’ and tiered pricing (which quotes price per unit/individual pack), may not be quoted in conjunction with any other offer or discounts. Adherence to these prices are at the absolute discretion of the company.

Ordering

You can order products from our website www.medisave.co.uk, by ordering on-line, by email to accounts@medisave.co.uk, by faxing through a copy of our order form to 0800 804 6448 or by telephoning 0800 804 6447.

All orders placed before 4.30pm Monday to Friday will be processed the same day (except Bank Holidays) and sent by either Royal Mail or Interlink couriers. For orders placed via the website tracking details will automatically be sent upon despatch to the email address provided for the order. All orders received after the cut-off time Monday to Friday will be processed the next working day.

If there is a problem with your order, for example if the product is out of stock, you will be contacted as soon as possible via email or telephone (please make sure all contact details are correct). If the order is part despatched (i.e. more than one delivery is required) you will only ever pay one delivery charge.

Delivery

Delivery is free of charge on orders over £99 ex VAT to anywhere within mainland UK. Delivery surcharges may apply if you wish to have delivery to offshore islands, (including Northern Ireland) UK islands and various Scottish postcodes above Glasgow/Edinburgh. We will notify you of these surcharges before despatching the order. Delivery cost for orders below £99 will be calculated by the price, weight and volume of the item – this can be confirmed prior to placing your order by contacting us for a delivery quotation.

On delivery you must inspect the goods carefully for damage as Medisave UK LTD is unable to accept responsibility for damage in transit, shortage of delivery or loss of products unless the customer advises us via telephone within four working days from the date of delivery. We despatch our orders via Royal Mail or Interlink courier services. We anticipate that all deliveries will arrive as specified, however Medisave UK LTD cannot accept any liability for any delayed or lost deliveries.

Please note: Should you require delivery to an address other than the billing address, please ensure that the correct information is provided when ordering. If you provide the incorrect address details, your order may be delayed. We reserve the right to only deliver to the billing address.

Due to restrictions with the couriers that we use, we are unable to deliver white goods (refrigerators and freezers) to Northern Ireland. Delivery surcharges may apply to some parts of Scotland, the Isle of Man, the Isle of Wight, The Channel Islands and other parts of non-mainland United Kingdom.

Unsuccessful deliveries – Medisave will hold unsuccessful deliveries for 4 months. If contact with the customer has been unsuccessful after this period we reserve the right to dispose of the goods.

Cancellation of Orders

Cancellation of orders must be received by the Medisave office by telephone on 0800 804 6447 before this is then put in writing by the buyer. Answer phone messages or email cannot be accepted for order cancellation.

Medisave is not under any obligation to fulfill cancellation to any order or part order. In some cases a restocking fee may be charged for made-to-order items.

Returns Policy

A product purchased from Medisave may be returned for the following reasons:

- If the product arrives faulty or damaged.
- If the product is incorrect due to error or misinformation (this must be reported within 4 days of receiving the product/s)
- The customer finds the product unsuitable or is dissatisfied with the product.
- Items returned to Medisave for the reasons outlined above should be done within 30 days of receipt, and should also meet the following criteria:

  - Goods must be returned as sold i.e. in the original packaging and in resalable condition.
  - Any free gifts or other additional bundled items delivered with the products must also be returned.
  - You must obtain a Returns Authorisation Number and label the parcel/s with it to allow the return to be dealt with as efficiently as possible.

If you would like to return an item please contact the returns department at Medisave on 0800 804 6447 to obtain a returns authorisation number. If you have a returns number you will need to clearly display it on the outside of the parcel and in a covering letter explaining the reasons for your return. Your parcel will then need to be returned to the following address:

Returns Department

Medisave UK
Medisave House
Mercery Road
Weymouth
Dorset
DT3 5FA

Please note you must organise the return of the items at your expense unless the item is faulty or incorrect due to an error by Medisave - in this instance your item will either be collected or postage will be refunded. This is at the discretion of Medisave and cannot be requested.

We regret we cannot accept returns of various types of non-faulty products if:

- Any products on the order that have been personalised (e.g. engraved stethoscopes, sphygmomanometers, diagnostics, otoscopes etc)
- Any specially manufactured products made to order.
- Any items of a sanitary nature (e.g. needles, syringes, continence products and nebulisers etc)

For some items purchased we may ask the manufacturer to contact you directly to establish the nature of the fault and then depending on the fault we will either organise a repair or replacement or in some instances ask you to liaise with the manufacturer directly.

In some circumstances when products are past their warranty or repairs are outside the warranty terms a charge may occur. When an item becomes faulty more than 30 days after purchase please call the Medisave Returns Department for advice.

Warranty and Limitation of Liability

Medisave warrants that all reasonable care will be taken to ensure the quality of materials and workmanship. In the event of any defect arising within 12 months, or a different period as specified in the general description of the goods, from the date of delivery to the Buyer, or as otherwise agreed in writing, the Seller will repair or replace the defective goods, if required to do so, provided that:

- they are returned carriage paid to the Seller’s premises; and
- it is proved to the Seller’s satisfaction that the defect is due to inferior workmanship or material.

The warranty excludes defects caused by misuse or neglect or arising from wear and tear and applies only to Goods bought directly from the Seller. The Seller shall not be under any liability to the Buyer for any defects in the Goods or for any loss or damage to or caused by the Goods, whenever they arise, except to the extent that the Seller has expressly accepted liability under these conditions. All other conditions, warranties or other terms whatsoever concerning the Goods, whether express or implied, by statute, at common law, or otherwise, hereby excluded to the fullest extent permitted by law.

In no circumstances (other than death or personal injury caused by the seller’s negligence) shall the Seller be liable for any purely economic loss or for any special, indirect or consequential damages of any nature whatsoever.

The Seller does not undertake to pay for the cost of repairs to defective material or goods incurred by the Seller without previous specific agreement in Writing.
