

E-VEST'S - BLACK

MB11.015

The Elite E-VEST'S is the ultimate in comfort and flexibility when it comes to carrying medical essentials. Universal PAL webbing provides a highly adaptive mounting, or MOLLE system, allowing packs, pouches, or other external items to be secured to the vest. Two zipped front pockets provide excellent, easy access storage for critical medical or tactical provisions. Built from hard-wearing fabrics and featuring a highly breathable mesh inner lining, the vest is both durable and comfortable, even in demanding environments. Internal rear pocket holds water bladder and tube with bite valve (not included).

Features

- Universal MOLLE system covers the vest, providing multiple pack anchorage options.
- Internal rear pocket holds water bladder and tube with bite valve, providing hydration while on the move.
- Internal rear pocket holds water bladder and tube with bite valve, providing hydration while on the move.
- Two zipped large breast pockets, perfect for documents or medical materials.
- Reinforced rear handle to facilitate the support and extraction of injured personnel.
- Identification panels.
- Breathable mesh lining helps regulate body temperature.
- Shoulder and back adjustment ensure a secure and comfortable fit.
