

REFUGE'S - BLACK

MB11.021

The Elite REFUGE'S high capacity pouch is built from high resistance 1000D Polyester and is designed to hold medical material or emergency equipment, such as foil or fire blankets in its large single compartment interior. With MOLLE system web strapping on the rear, it can easily be anchored to large packs, bags and vests. Velcro closing flap helps ensure the zip remains securely closed and protected, even in challenging environments.

Features

- Built from high resistance 1000D polyester ensures tough built quantity.
- Treated with water repellent, helping keep contents dry.
- High visibility night & day reflective band.
- Contrasting red zip pull cords for an easier opening experience.
- MOLLE universal anchoring system allows anchorage to larger packs and bags and the Elite E-VEST'S
- Velcro top closing flap and zip protector. Built from high resistance 1000D polyester ensures tough built quantity.
