

The first ABPM recorder worldwide successfully validated according to ESH-IP 2010

Up to
72hrs
recording

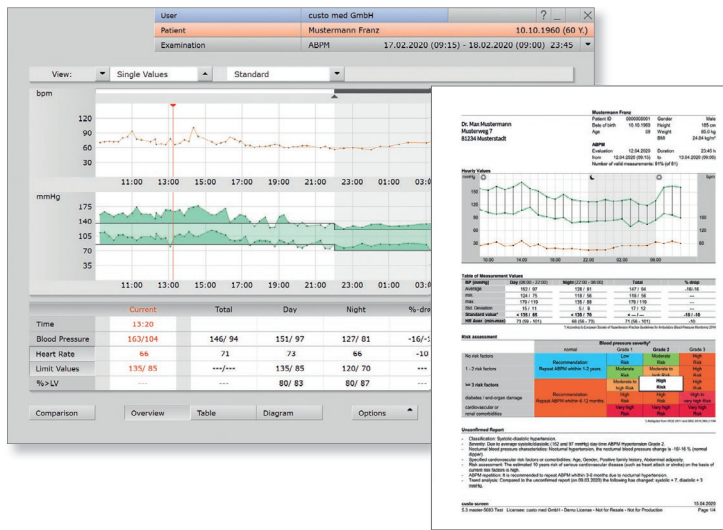

Due to our validation, we can guarantee exact and reliable measurement results and artefact suppression is significantly improved, too. Automatic day-night-recognition, faster inflating and deflating times as well as the low-noise operation make the recorder very comfortable for the patient.

Our benefits

- + **Precise measurement even during atrial fibrillation**
- + Skin-friendly, easy-to-disinfect, synthetic cuff available in sizes S to XXL (latex-free)
- + High-quality double tube system for significant reduction of motion artefacts
- + Efficient energy management enables recordings up to 72 hours
- + Enhanced patient comfort due to low operating noise and blood pressure adapted inflation control
- + Fast wireless data transfer from the recorder to the PC
- + Night mode for a restful sleep
- + Low-noise pump valve unit for patient-friendly measurement
- + Adaptive algorithm for gentle measurement
- + Robust recorder with high-performance components for a long product life cycle
- + **Fully integrated with EMIS and Systmone**

Diagnostic software

Accessories

- + Multi com / com IR for wireless transmission
- + Hygiene set - screen protect
- + Various cuffs:
 - + Small / Child: 20 – 24 cm
 - + Standard: 24 – 32 cm
 - + XL: 32 – 40 cm
 - + XXL: 38 – 50 cm
- + Carrying bag and belt
- + Disposable bags
